System of Classification and Labelling of Chemicals**

Thirtieth session

Geneva, 9 – 11 December 2015

Item 4 (c) of the provisional agenda

Hazard communication issues: miscellaneous

GHS Precautionary statement P502

Comments on document ST/SG/AC.10/C.4/2015/9

Transmitted by the expert from France

1. At the 29th session of the Sub-Committee of Experts on the Globally Harmonized System of Classification and Labelling of Chemicals, a proposal was put forward by the expert from Sweden regarding the use of precautionary statement P502 for the hazard class “Explosives” (see documents ST/SG/AC.10/C.4/2015/5 and UN/SCEGHS/29/INF.20).

Based on discussions during that session, a new proposal is presented by the expert from Sweden (see document ST/SG/AC.10/C.4/2015/9).

2. The expert from France is proposing that such a document which enters in the scope of explosives of Class 1 should be examined too for any comment by the Working Group on Explosives during the 48th session of the Sub-Committee of Experts on the Transport of Dangerous Goods.
