### **2. Programme of Work: Taking Stock of National Legislation**

The Group of Experts may wish to review its programme of work, specifically taking stock of the existing national legislation with the aim to describe and assess the degree of implementation of the 1968 Convention on Road Signs and Signals. The Group of Experts will be invited to discuss the information collected via a newly developed web-based Road Signs Management System. In this context, experts will be invited to analyze the signs submitted in the "Convention category" (starting from the E, 2 sign) by using the methodology agreed upon at the second session, i.e. sign-by-sign assessment focusing on deviation identification and description, deviation evaluation, recommendations and assignment of "in-conformity indicators" for both images and definitions. The experts of Denmark, Finland, France, Kuwait, Latvia, Lithuania, Luxembourg, Nigeria, Republic of Moldova, Portugal, Russian Federation, Spain, Sweden, and Switzerland, who have not presented their preliminary analysis at the fifth session, will be invited to do so for the signs, E, 2 to G, 24c as agreed previously. The experts from Nigeria and Switzerland will be invited to make proposal for coding of D, 1 a, D, 2 and D, 10 signs. The experts from Kuwait may wish to present their proposal on the use of the pedestrian symbol on relevant signs.

The Group will be also invited to discuss the signs from C, 10 to C, 20 as well as to continue its discussions about the methodology to be used to evaluate "non-Convention" signs.

### **3. Other Business**

The Group of Experts may wish to discuss other matters of interest.
