6 November 2018

Clarification of the tunnel restriction code for UN 3363

Transmitted by the Government of Germany

Introduction

1. When examining the envisaged amendments to ADR 2019, a lack of clarity concerning UN 3363 was identified. For clarification, it will be necessary to correct Column (15) for UN 3363.
2. Reasons: The current entry in Table A of Chapter 3.2 of ADR is to be replaced by an amended entry (assignment to the special provisions, information on limited and excepted quantities as well as on the packing instruction).
3. However, Column (15) does not contain any information on whether the tunnel provisions apply to UN 3363.

Proposal for amendment:

4. In order to clarify the application of the tunnel restriction code to UN No. 3363, a new entry is inserted in Chapter 3.2, Table A, Column (15) at the bottom of the cell:

Table A:

Insert the following new entry:

UN No.	Column	Amendment
3363	(15)	Insert at the bottom of the cell: "(-)"

When no tunnel restriction code has been assigned, this is indicated by the mention '(-)' (in accordance with the explanatory note for Column (15) in ADR).

5. We would like to know the opinion of the members of the Working Party about the above proposed correction.
