Economic Commission for Europe**Inland Transport Committee****Working Party on Inland Water Transport****Working Party on the Standardization of Technical
and Safety Requirements in Inland Navigation****Fifty-second session**

Geneva, 14-16 February 2018

Item 5 (b) of the provisional agenda

**Inland waterways infrastructure: Inventory of Main Standards
and Parameters of the E Waterway Network (“Blue Book”)****Amendment proposal to the Inventory of Main Standards
and Parameters of the E Waterway Network (“Blue Book”),
revision 3****Transmitted by the Government of Ukraine**

1. In 2017, the United Nations Economic Commission for Europe issued the third revised edition of the Inventory of Main Standards and Parameters of the E Waterway Network (“Blue Book”) (ECE/TRANS/SC.3/144/Rev.3). Table 1 “Navigational Characteristics of Main European Inland Waterways of International Importance” specifies the maximum draught of vessels and pushed convoys which may be accommodated by the Ukrainian section of the E-40 waterway as:

- 1.50 m (class IV) – for the Prypyat section from the Belarus-Ukraine border to the mouth;
- 2.65 m (class Va) – for the Dnipro section from the mouth of the Prypiat to Kyiv;
and
- 3.65 m (class Vb) – for the Dnipro sections from Kyiv to Kherson.

2. These values relate to the guaranteed depths on the above-mentioned waterway sections, and not to the maximum draught of vessels and pushed convoys that can be accommodated. It is therefore proposed to amend Table 1 as proposed below.

3. Pages 37-38, column 6

Replace the existing values by

E WATERWAY	SECTION OF E WATERWAY	LENGTH (km)	MAXIMUM DIMENSIONS OF VESSELS AND PUSHED CONVOYS WHICH MAY BE ACCOMMODATED		
			LENGTH*** (m)	WIDTH*** (m)	DRAUGHT (m)
1	2	3	4	5	6
E 40	PRIPIAT Belarus/Ukraine border — mouth of the Pripiat River	62.5	.../...	.../...	...
