

Proposal for the 01 Series of amendments to UN Regulation No. 122 (Heating systems)

This proposal aims at introducing the new provisions for heat pump heating systems, proposed per document ECE/TRANS/WP.29/GRSG/2018/21, as a new series of amendments.

I. Proposal

Insert a new paragraph 10., to read:

- "10. TRANSITIONAL PROVISIONS**
- 10.1. As from the official date of entry into force of the 01 series of amendments, no Contracting Party applying this Regulation shall refuse to grant or refuse to accept type approvals under this Regulation as amended by the 01 series of amendments.**
- 10.2. As from 1 September 2021, Contracting Parties applying this Regulation shall not be obliged to accept type approvals to the preceding series of amendments, first issued after 1 September 2021.**
- 10.3. Until 1 September 2023, Contracting Parties applying this Regulation shall accept type approvals to the preceding series of amendments, first issued before 1 September 2021.**
- 10.4. As from 1 September 2023, Contracting Parties applying this Regulation shall not be obliged to accept type approvals issued to the preceding series of amendments to this Regulation.**
- 10.5. Contracting Parties applying this Regulation shall not refuse to grant type approvals according to any preceding series of amendments to this Regulation or extensions thereof."**

Paragraphs 10. and 11., re-number accordingly.

II. Justifications

This proposal introduces transitional provisions into UN Regulation No. 122 for the case document ECE/TRANS/WP.29/GRSG/2018/21 is adopted. The latter indeed introduces changes to the technical requirements for vehicles equipped with heat pump heating systems, it is hence logical to add transitional provisions into the Regulation.
