Proposal for amendments to ECE/TRANS/WP.29/GRSP/2019/27 (the 10 series of amendments to UN Regulation No. 17 (Strength of seats))

I. Proposal

5. Requirements

Paragraph 5.6.3., amend to read;

5.6.3. Minimum width

When measured in accordance with Annex 24, the lateral width of a head restraint shall be not less than 85 mm on either side of the torso line (distances L and L').

6. Tests

Paragraph 6.4.2., amend to read:

6.4.2. In the case of a bench seat, where part or all of the supporting frame (including that of the head restraints) is common to more than one seating position, the displacement test shall be conducted simultaneously for all those seating positions.

6.4.3. Test for determining rearward displacement for the head restraint

II. Justification

➢ 5.6.3. Editorial correction
➢ 6.4.2. Necessary improvement of clarity due to the addition of new requirement (height retention) to clarify that paragraph 6.4.2. is aimed at the test for determining rearward displacement for the head restraint prescribed in 6.4.3.
