

BELGIAN GLOBAL APPROACH ON THE RADIOLOGICAL SURVEILLANCE OF RADIOACTIVE SUBSTANCES IN METAL SCRAP AND NON-RADIOACTIVE WASTE

WERTELAERS A., DROESCH P., MICHIELS J., PEPIN S., POFFIJN A., SCHRAUBEN M.

FEDERAL AGENCY FOR NUCLEAR CONTROL (FANC), Brussels, Belgium

International Conference on Control and Management of Inadvertent Radioactive Material in Scrap Metal

CSN – IAEA – February 2009 – Tarragona, Spain

KEY FACTORS FOR SUCCESS

- **Close cooperation with :**
 - NIRAS/ONDRAF : Belgian National Agency for Radioactive Waste and Enriched Fissile Materials
 - Financing mechanism for orphan sources
 - Environmental administrations of the three Belgian Regions : the Flemish, Walloon and Brussels-Capital Regions)
- **Stakeholders involvement : professional sectors**
 - COBEREC (Belgian Recuperation and Recycling Federation)
 - FEBEM/FEGE (Waste Management Federation)
 - GSV (Belgian Steel Federation)
 - INTERAFVAL (Flemish Intermunicipal Companies for Waste Treatment)
 - VVSG (Association of Flemish Cities and Municipalities – public waste management)
 - COPIDEC (Walloon Intermunicipal Companies for Waste Treatment)
 - AGORIA (Federation for the Technology Industry)
- **Financing mechanism for orphan source : fund of NIRAS/ONDRAF**
 - Registration of facilities (and portal detector) mandatory
 - Notification of source discovery
 - Examination by FANC : orphan source ? financing ?
 - FANC orphan source certificate => ONDRAF/NIRAS
