

The State Customs Committee of the Republic of Azerbaijan

**How to embrace full benefits of
digitalization of transport services - eTIR
International System**

CATS project

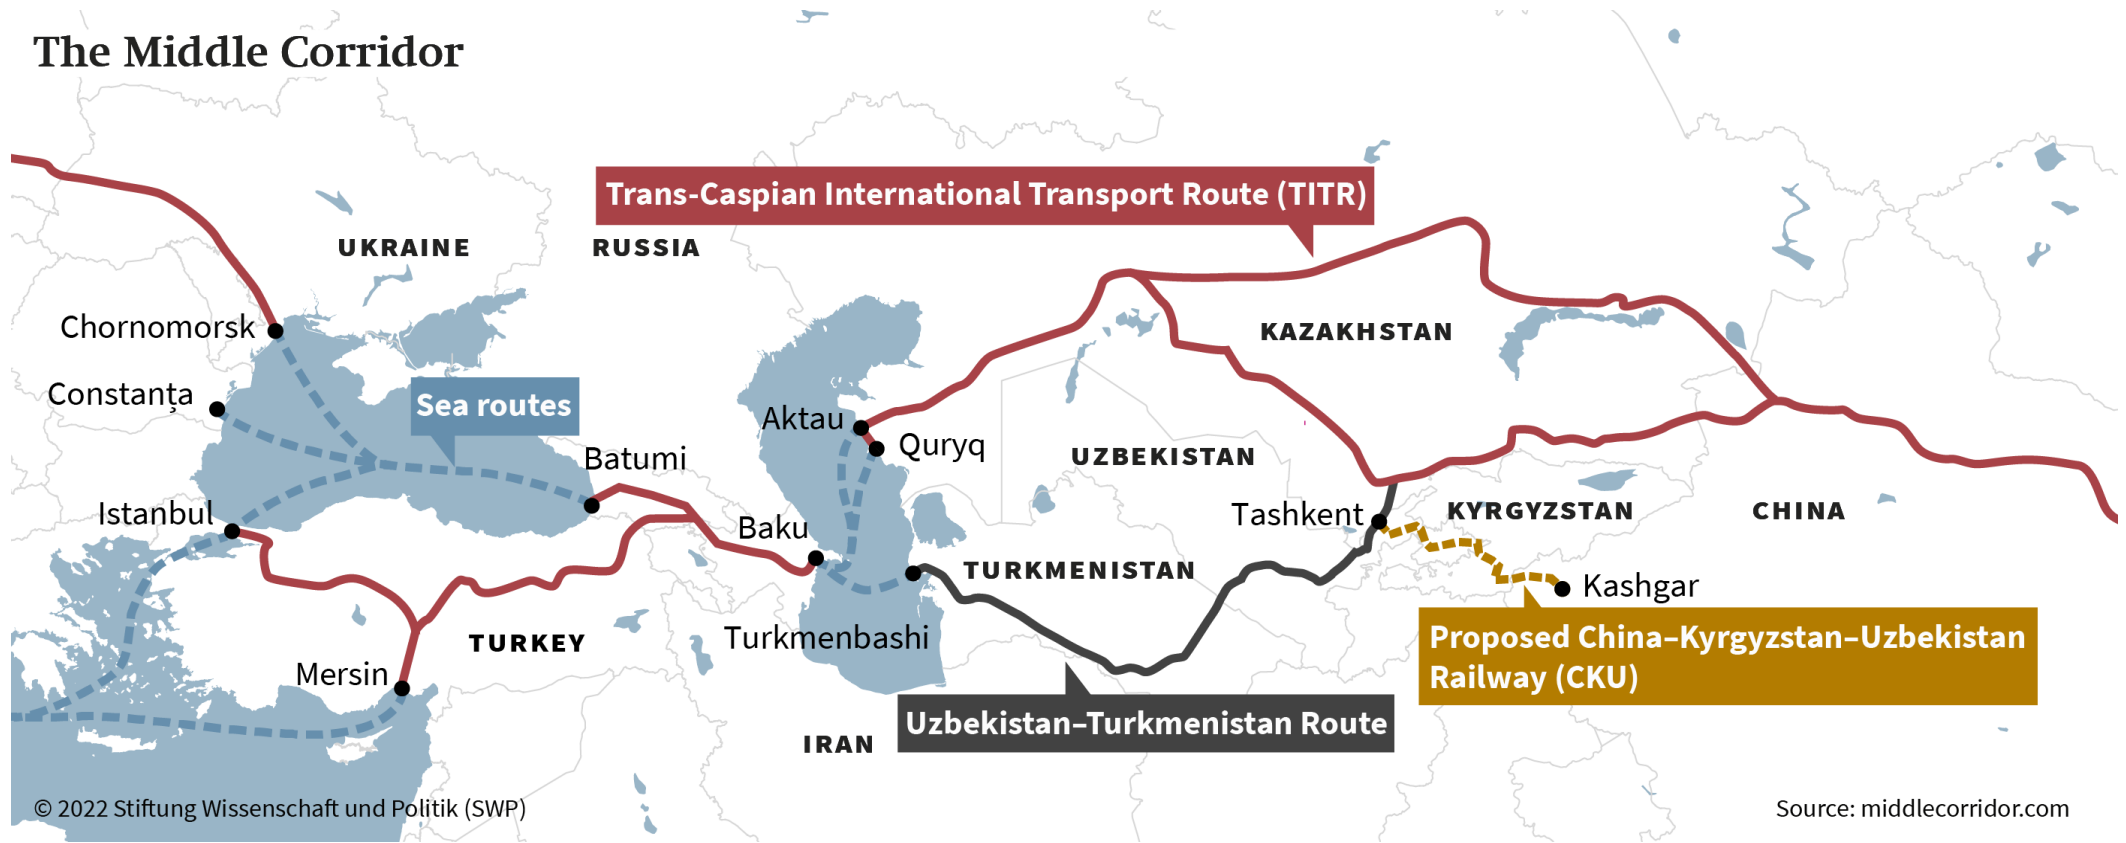

- Under the CAREC program, which envisages the use of an alternative digital transit system as an analogue to the NCTS, a draft Memorandum of Understanding between the customs authorities of the Republic of Azerbaijan, Georgia, and the Republic of Uzbekistan on the implementation of the CAREC Enhanced Transit System (ETS) and Common Information Exchange (CIE) was developed with financial support from the Asian Development Bank.
- This system, like the NCTS, provides for preliminary exchange of information on the route of transportation, introduction of electronic transit documents, and customs guarantees.

Trans-Caspian international Middle Corridor

The Middle Corridor

Trans-Caspian International Middle Corridor "East-West"

The screenshot shows a web application for 'Transit Declaration' on a laptop. The interface includes a sidebar with navigation options: Dashboard, Transit Declaration (selected), Requests, and Customs offices. The main content area is titled 'Transit Declaration' and features a search bar with 'M.R.N' entered and a 'Search' button. Below the search bar, there are three data cards, each representing a transit declaration. Each card displays the M.R.N (1243456688), transport type (Avto transport), submitted date (07 fevral 2022 12:00), sender country (CN- CHINA), destination country (AZ -AZERBAIJAN), consignor/exporter (OOO PEPSIKO XOLDINGS), and items count (5 or 4). A 'Documents' button is visible next to the first card.

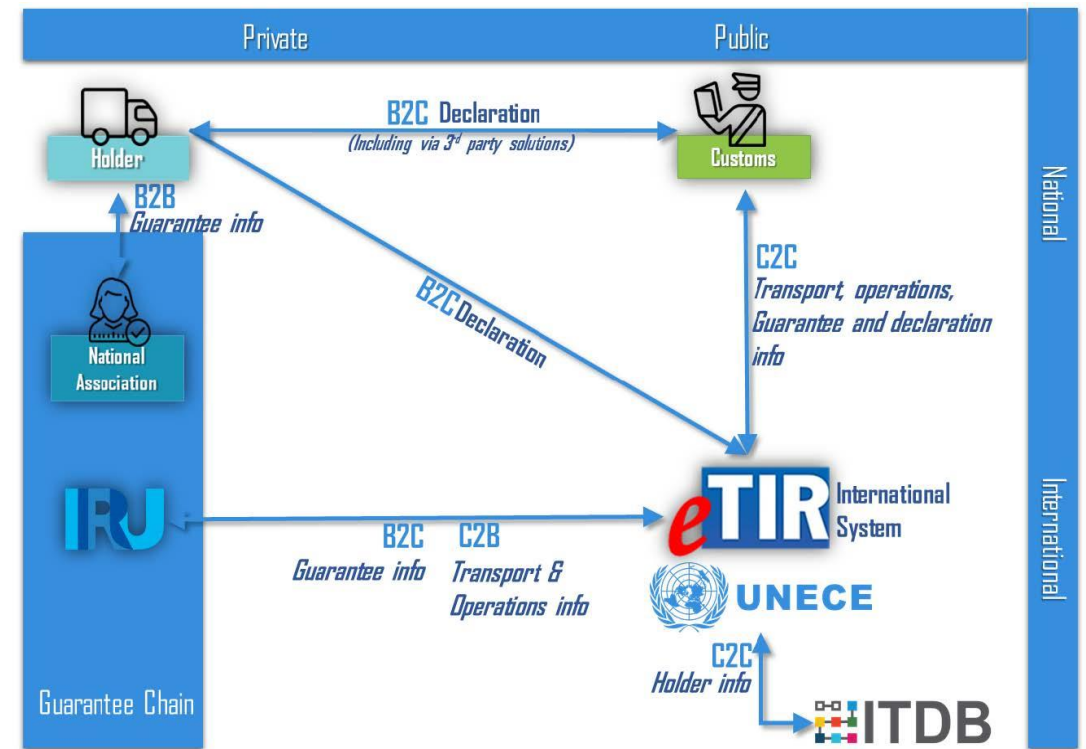

M.R.N	Transport type	Submitted date	Items count
1243456688	Avto transport	07 fevral 2022 12:00	5
1243456688	Avto transport	07 fevral 2022 12:00	5
1243456689	Avto transport	07 fevral 2022 12:00	4

eTIR

- TIR Convention, Annex 11, adopted on May 25, 2021.
- On June 3, 2022, a protocol was signed between the State Customs Committee of the Republic of Azerbaijan and the Azerbaijan International Road Carriers Association on additions to the "Guarantee Agreement for TIR Instructions" (In order to recognize the electronic guarantee).
- On December 26, 2022 for the first time electronic TIR (eTIR) transit transportation in accordance with the Customs Convention on the International Transport of Goods under Cover of TIR Carnets (TIR Convention) was carried out between Uzbekistan and Azerbaijan.
The information system of the SCC of the Republic of Azerbaijan is connected to the eTIR international transit system.
The system will become fully operational after other countries join it.

E-Queue

STATE CUSTOMS COMMITTEE
OF THE REPUBLIC OF AZERBAIJAN

Electron service of fast track of persons and vehicles through the state border crossing points of the Republic of Azerbaijan.

Electronic queue(e-Queue)

The "Electronic Queue" service is intended only for extraordinary entry to a customs border checkpoint and is not related to queues formed as a result of customs control procedures. [see more](#)

Edit

Fast track
(Fast Track)

Edit

CiP services
(Soon)

Edit

Transport entering and leaving the country takes an electronic queue

The drivers are notified by SMS

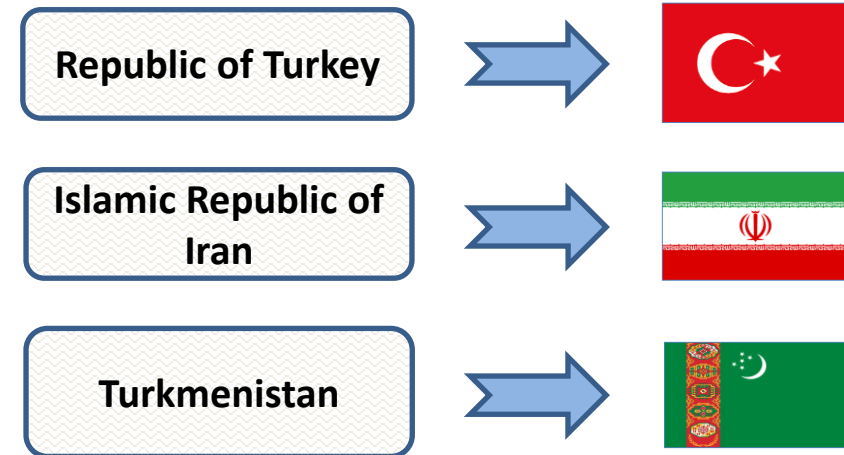

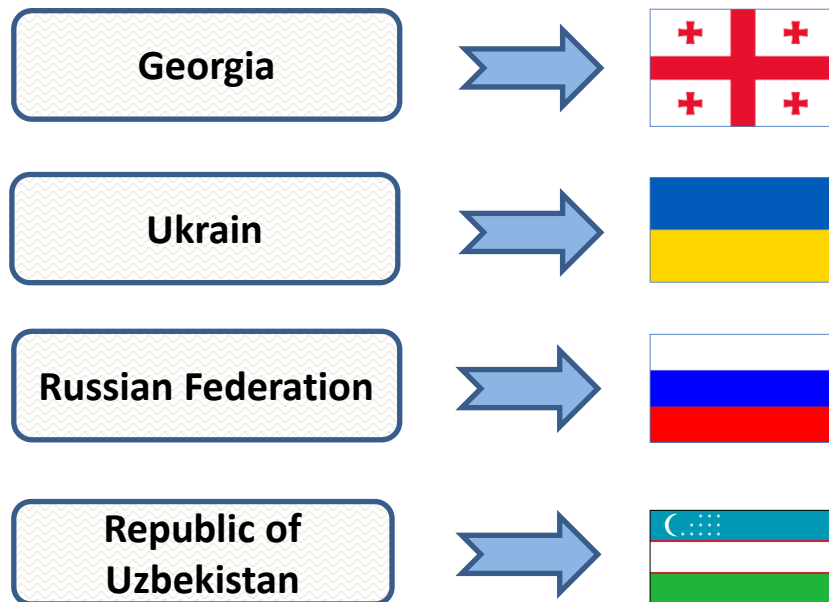

Drivers can also follow the queue through the e-service provided on e.customs.gov.az

Cross-border data exchange for customs purposes

Preliminary exchange of information on goods and means of transportation across the customs border

Customs border checkpoint «KHANOBA»

- 13 lanes
- Terminal services (warehousing, parking, loading, etc.)
- Customs clearance center "TAM"
- Technology solutions (XRAY, TRS)

- Release possibilities in each direction:
- 550 truck
- 1000 cars
- 30 buses
- At present, customs control is ensured and vehicles are released on the territory of the post.
