

PROVISIONAL PROGRAMME AND TIMETABLE

Monday, 3 May 1999

09:00 – 10:00 Registration

10:15 – 10:45 Opening session

Introductions by ECE, Eurostat and ISTAT
Elections of chairperson and other meeting officers

10:45 – 18:00 **Session 1: Latest international population projections for the ECE region**

WP No.19: World population prospects - the 1998 revision (*UN Population Division*)

WP No.20: World population projections (*International Programs Center of the US Bureau of the Census*)

12:30 – 14:30 Lunch

WP No.21: New population scenarios for Europe: uniformity or diversity? (*Netherlands Interdisciplinary Demographic Institute and Statistics Netherlands*)

WP No.22: Projections of the population of Central and Eastern Europe (*Marek Kupiszewski and Doreta Kupiszewska*)

16:00 – 16:30 Coffee/tea

WP No.14: Demographic scenarios and population projections for the Russian Federation till 2015 (*Goskomstat of Russia*)

WP No.23: New regional population scenarios for the European Union (*Nicole van der Gaag and Harold Eding*)

WP No.24: Evaluation of regional population scenarios for the European Union (*Philip Rees and Marek Kupiszewski*)

Tuesday, 4 May 1999

09:00 – 12:30 **Session 2: Households**

WP No.7: First long-term household scenarios for the European Union (*Maarten Alders and Dorien Manting*)

WP No.25 and 26: New marital status projections for England and Wales (*Chris Shaw*)

10:30 - 11:00 Coffee/tea

WP No.27: The household dimension in European labour supply (*Corina Huisman*)

WP No.28: Family formation in Italy (*Federico Geremei*)

12:30 – 14:30 Lunch

14:30 – 18:00 Session 3: Fertility

WP No.29: Fertility projections: an international comparison (*Maria Pia Sorvillo*)

WP No.5: Evaluation of fertility assumptions in population forecasts referred to a change in fertility pattern in Poland (*Grazyna Marciniak*)

16:00 – 16:30 *Coffee/tea*

WP No.17: Is low fertility only a temporary phenomenon in the EU? (*Ron Lesthaeghe and Paul Willems*)

WP No.18: Values in life and reproductive intentions (*Rosella Palomba*)

Wednesday, 5 May 1999

09:00 – 12:30 Session 4: Mortality

WP No.30: A review of latest national mortality forecasts within the ECE region (*Harri Cruijssen and Harold Eding*)

WP No.31: Approaches and experiences in projecting mortality patterns for the oldest old in low mortality countries (*Thomas Büttner*)

10:30 - 11:00 *Coffee/tea*

WP No.32: Mortality projections by cause of death (*Ewa Tabeau*)

WP No.33: Incorporating risk factor epidemiology in mortality projections for the near future (*Marianne van Genugten, Rudolf Hoogeveen and Augustinus de Hollander*)

12.30 – 14.30 *Lunch*

14:30 – 18:00 Session 5: International migration

WP No.34: A review of recent international migration forecasts (*John Long*)

WP No.13: Migration assumptions in a small open economy: the case of Luxembourg (*Jean Langers*)

WP No.35: Economic indicators of migration trends in four European countries (*Leo van Wissen*)

16:00 – 16:30 *Coffee/tea*

WP No.36: Problems of applying current immigration data to population projections: the case of the United States (*Fred Hollmann*)

WP No.2: Model approaches to the indirect estimation of migration flows: from entropy to EM (*Frans Willekens*)

WP No.37: International migration within Europe: towards more complete and more reliable data (*Michel Poulain*)

Thursday, 6 May 1999

09:00 – 10:30 Session 6: Internal migration

WP No.38: Analysis of internal migration patterns following German unification (*Hansjörg Bucher*)

WP No.39: Internal migration in population forecasts: necessity and predictability (*Tomas Kucera*)

WP No.40: Lessons for the projection of internal migration from studies in ten European countries (*Phil Rees*)

10:30 - 11:00 *Coffee/tea*

11:00 – 18:00 Session 7: Uncertainty, users and uses of demographic projections

WP No.41: Uncertainty in demographic projections and its consequences for the user
(*Josianne Duchêne and Philip Wanner*)

WP No.42: Use of probabilistic forecasts (*Shripad Tuljapurkar*)

12:30 – 14:30 *Lunch*

WP No.43: Stochastic population forecasts for Finland (*Juha Alho*)

WP No.44: How to operationalize expert based probabilistic population projections? (*Sergei Scherbov and Wolfgang Lutz*)

16:00 – 16:30 *Coffee/tea*

WP No.6: Simulated confidence intervals for future period and cohort fertility in Norway
(*Nico Keilman and Arve Hetland*)

WP No.45: Probabilistic population and household forecasts for the Netherlands (*Joop de Beer and Maarten Alders*)

Friday, 7 May 1999

09:00 – 10:30 Session 7 (continued)

WP No.9: An unique set of population projections for several uses and users (*Luc Lebrun*)

WP No.15: On the use and users of demographic projections in Canada (*M.V. George*)

WP No.46: On the use and users of demographic projections in Germany (*Bettina Sommer*)

WP No.8: Demographic official population figures and population projections in Spain
(*Margarita Cantalapiedra*)

WP No.47: Official household projections in England: methodology, usage and sensitivity tests
(*Dave King*)

10:30 - 11:00 *Coffee/tea*

11:00 – 12:30 Session 8: Conclusions and recommendations of the Work Session

12:30 – 12:45 Closing of the meeting
