Introduction

Following the March 1996 decision to abolish Status 1 and Status 2 it became apparent that the existing version/release procedures had to be modified. Thus, the ESG requested that such a revision be done.

Due to time constraints, it was not possible to formally publish the following document as TRADE/WP.4/R.982/Rev.1. However, due to the request to implement the abolishment of Status 1 and Status 2 for the D.97A directory which will be finalized at the end of 1996, a decision on this document is needed at the September 1996 session of GE.1 and WP.4. Therefore, delegations are asked to review this document with the need for such a decision in mind.
