

CHAPTER 1.9 ADR – ADDITIONAL RESTRICTIONS ON THE CARRIAGE OF DANGEROUS GOODS

Notification according to 1.9.4 [1.9.3 (a)]

(State of 1/10/2005)

Transmitted by the Government of Austria

By ordinances based on the Road Traffic Act (Strassenverkehrsordnung StVO) restrictions are imposed for the carriage of dangerous goods on certain **tunnel routes**. The restrictions do not apply to carriage under 1.1.3.6 ADR.

I. Restrictions on highways

These restrictions are based on the *Ordinance by the Federal Minister for Transport, Innovation and Technology concerning Restrictions for Transport Units carrying Dangerous Goods through Highway Tunnels (Verordnung der Bundesministerin für Verkehr, Innovation und Technologie über Beschränkungen für Beförderungseinheiten mit gefährlichen Gütern beim Befahren von Autobahntunneln, BGBl. II Nr. 395/2001)*

(For the text of the ordinance in German see <http://wko.at/up/enet/autobahntunnelvo.pdf>)

Explanations to the restrictions under I.:

Transport units with high risk

are transport units subject to marking with orange-coloured plates whose hazard identification number

- has "2" as first figure (f.i. 20, 225 or 23) or
- has doubling of figures "3", "4", "5", "6" or "8" (f.i. 33, 333, 336 or 44) or
- is prefixed by the letter "X" (f.i. X423).

Types of conditions

- A The transport units must be fitted with at least one amber **warning lamp**. That lamp must be switched on before entry and remain in operation throughout the route concerned.
- B The transport units must be accompanied by at least one **escort vehicle**. During the escort the escort vehicle must operate an amber warning light as well. The crew of the escort vehicle must have the **information** about the ADR **classification** of the goods being carried, as contained in the transport document(s), together with the **quantity**. At least one member of the crew of the escort vehicle must hold an **ADR training certificate** for drivers.

Escort services

Entries under this column are based on information by regional administration authorities; this does not exclude escort performed by other services, as long as they comply with the applicable requirements. For modifications of entries please send information to email sabine.mach@bmvit.gv.at.

II. Restrictions on roads other than highways

These restrictions are based on the ordinances (Verordnungen) issued by the governments of the federal provinces or by the regional administration authorities figuring under the column “*Legal Source*”.

Explanations to the restrictions under II.

Transport units with high risk

are transport units subject to marking with orange-coloured plates whose hazard identification number

- has "2" as first figure (f.i. 20 or 23) or
- has doubling of figures "2" to "8" (f.i. 33 or 44) or
- is prefixed by the letter "X".

Types of conditions

- C The transport unit must be fitted with at least one amber **warning lamp**. That lamp must be switched on before entry and remain in operation throughout the route concerned.
- D The drivers of the transport units have to **notify** the **tunnel control** of the **ADR classification** of the goods being carried, as contained in the transport documents, together with the **quantity**.
- E The transport units must be accompanied by at least one **escort vehicle**. During the escort the escort vehicle must operate an amber warning light as well.
- F The drivers must obtain **permission to pass** by the tunnel control.
- G The drivers have to observe a **minimum distance** to the vehicle in front.
