

**TER Working Party on Infrastructure Developments and Technical Operations (WP1)**

On 12-14 May 2004, the Session of the TER Working party 1 took place in Innsbruck, Austria.

On the agenda of the meeting were important issues like: the need for modernisation of railway infrastructure and adequate funding of works, an exchange of views on the request of ECE-ITC to organise a seminar on the phased approach to transport infrastructure developments in TER countries, discussions on the future Seminar on facilitation of border crossing in international rail transport, status of TER network, restructuring railway companies etc.

The meeting was attended by participants from the majority of TER member countries. They were offered also the possibility to visit the construction site in Tirol where a tunnel was recently built and where rehabilitation works take place on a railway section in the Arlberg im Tirol mountains, where many resorts are full of people all around the year.
