Two of approved type according to:

- Class C of draft Regulation No. 113."
- 

## **B. JUSTIFICATION**

In ECE Regulation No. 113 there are two new categories of headlamp and these amendments clarify which lamp can be fitted to which type of motorcycle.

Class B headlamp is necessary for motorcycles having a cylinder capacity  $\leq$  125 cm<sup>3</sup> until the new proposed Class C and light source for Class C are available in sufficient quantities on the market. IMMA is investigating what lead time is needed prior to the eventual phasing out of this headlamp.
