PILOT
QUESTIONNAIRE on
VEHICLE
KILOMETRES

Hans Strelow

Eurostat/ITF/UNECE PILOT QUESTIONNAIRE on VEHICLE KILOMETRES Overview

- Table 1 & 2
- Table 3 and Eurostat methodology questionnaire

TABLE 1 & 2.

-Streamlined

-Online since beginning of May

Table 3

On hold

Table 3 - Way forward, suggestion

-Eurostat is in cooperation with DG MOVE preparing some tables for the eventual legal act with data from the roadworthiness package in the countries (based on the streamlined CQ vehicle stock)

Table 3 - continued

- This worked has started with a questionnaire on data availability (no data) sent with deadline the 13/6 (today ~12 replies)
- Eurostat will compile the data and draft suitable tables for the future

Table 3 - continued

- This future tables would probably be very close to the needs of the ITF and UNECE
- Suggestion, wait for the new tables, adopt/aggregate these tables in the IWG and let the result be the new table 3
