1.6. Areas of progress in addressing issues related to the interaction between population and sustainable development.

Among the issues related to the interaction between population and development that are most relevant in the national context, briefly list achievements (citing reports), and comment on facilitators and barriers. List as many issues as are deemed relevant by copying this table – each table is for one (1) identified issue.

| ICPD issues regarding population and sustainable development of relevance to the national context | |
|---|--|
| a) Name of the issue (mentioned in question 2.5 above) | Eradication of poverty with special attention to income generation and employment strategies |
| b) Key achievements | <p>State policy for promoting Small and Medium Sized enterprises (SMEs) was based on the values and principles of the modern business and was focused on five priority directions:</p> <ol style="list-style-type: none"> 1) Ensuring of a favorable legislative and normative framework for the creation and development of SMEs; 2) Improving the financial environment for SMEs 3) Promoting entrepreneurship culture and the managerial performances of SMEs 4) Developing competitiveness and internationalization of SMEs 5) Boosting the dialogue between Government and private sector <p>1) In order to simply the existent regulations and to reduce the number of procedures that hinder the normal business development, a process for registering all the permissive norms, called Guillotine 2+ has been launched. Thus, over 400 authorizations issued by over 45 profiled bodies have been recorded. In consequence, the Law on regulation through authorizations of entrepreneurship activities (which envisages the threshold of all the authorization permits – at 273 authorizations and the number of issuant authorities – at 34 bodies, as well as the validity terms and the overall costs of these acts), the Law on the amendments and completions to some legislative acts (under which amendments to 18 legislative acts have been included, by removing the acts and bills that may be related to the acts that are to be revoked); the Law on the implementation of the Single Desk for entrepreneurial activities.</p> <p>2) Due to financial instruments, the state grants guarantees to the SMEs, facilitating thus the procedure of getting loans from banks. In order to improve the crediting conditions for SMEs, a State Fund for Guaranteeing Loans, managed by the Organization for the Development of Small and Medium Sized Enterprises under the Ministry of Economy, has been created. It is a successor of the Fund for Development of Entrepreneurship and Small Business. In order to enhance the SMEs' access to financial resources, two new guarantee tools meant for migrant workers and the youth who apply for credits, but who do not have enough pawns, have been introduced: -For migrant workers (PARE 1+1) beneficiaries – the guarantee represents up to 50% of the total sum of the</p> |

| | <p>loan; that cannot exceed 200 thousand Moldovan leu (MDL). - For young entrepreneurs (PNAET beneficiaries) – the guarantee represents up to 50% of the total sum of the credit, which cannot exceed 150 thousand MDL.</p> <p>3) In the Republic of Moldova, the Ministry of Economy, which has elaborated and implemented programmes for young entrepreneurs and employees, and the National Employment Agency, which organizes trainings for entrepreneurship development, are in charge of training and career development policies in the education system. In order to ensure the development of the sustainable entrepreneurship education, as many as 175 business service providers, including non-governmental organizations, private companies, governmental organizations, projects financed by foreign partners, profile associations and trade chambers are providing paid or free of charge business consultancy services. The state programmes for continuous training are implemented by the Organization for the Development of Small and Medium Sized Enterprises under the Ministry of Economy, which has organized the training Efficient Business Management, meant for entrepreneurs and their employees. Its main goal is to improve their skills in the entrepreneurship field and to ensure the efficient management of their businesses. In 2011, as many as 67 training courses for 2,173 people from 15 Moldova settlements were organized.</p> <p>4) The Government paid efforts to contribute directly and indirectly to the enhancement of the SMEs' competitiveness. It managed to ensure business and innovational support for the SMEs, free consultancy for elaboration of the needed marketing strategies and the launch of new products on the Moldovan and international market, lower taxes for the protection of intellectual property, support in the implementation of quality standards. Moreover, the Government made attempts to start the process of creation of business clusters in Moldova.</p> <p>5) In order to consolidate the public-private partnership and the capacities of the SMEs, the Forum of Small and Medium Sized Enterprises is annually organized at the International Exhibition Center Moldexpo.</p> |

| e) Name of the issue (mentioned in question 2.5 above) | Strengthening food security |
| f) Key achievements | <p>The policy for subsidizing agricultural producers has been established as a foremost priority for ensuring Moldova's food safety. The facilitation of access to rural financing for farmers has been carried out by the creation of preferential loan terms and the granting of technical support for launching a new business (elaboration of business plans, trainings in different relevant fields for that very business, etc.)</p> <p>In line with the decision No.89 adopted by the Moldovan Parliament on May 12th, 2011 "On the approval of main directions for using the proceeds of the Fund for Subsidizing Agricultural Producers" and according to the Government decision No. 369 of May 24th, 2011 "On the approval of the use of financial means of the Fund for Subsidizing Agricultural Producers for 2011", the Fund of Subventions stood at 250 thousand MDL in 2011, being subsequently increased up to 400 thousand MDL. The financial support of the state has been directed to:</p> <ul style="list-style-type: none"> - supporting 64 agricultural producers who reimbursed in 2011 the loans received from commercial banks, micro-financing organizations and savings and loan organizations; - supporting 164 agricultural producers that insured their production risks in the farms sector; - planting 1868,3 hectares of fruit trees plantations and 1860,8 young plants; - planting 2687,2 hectares of vineyards and 1408,6 of planting stock items; - expanding the greenhouses surfaces and tunnels for growing vegetables on protected areas, by about 5.5 thousand hectares in 2011; - subventions for purchasing 716 units of agricultural machines and 1093 units of farm equipment, 121 irrigation systems, 2 anti-hail systems and 3 anti-freeze installations; - expanding the areas encompassed in the environmental conversion by about 1215,9 in 2011. Thus, they reached a total surface of 22 thousand hectares; - the creation and renovation in 2011 of: 89 units for preserving and processing vegetable-origin goods (including 35 cold-storage plants, 50 units for processing vegetable-origin goods, 2 drying plants and 2 packing houses) and 32 units for preserving and processing animal-origin goods (including 9 livestock plants, 11 poultry plants and 12 units for processing raw materials) - Purchasing 4323.8 thousand livestock heads for breeding 374 mother bees and 7487.5 thousand larval fish |

| ICPD issues regarding the needs of the family and the wellbeing of individuals relevant to the national context | |
|---|---|
| a) Name of the issue (mentioned in question 5.5 above) | Increasing efforts to ensure health, education and welfare services function collaboratively and effectively |
| b) Achievements (cite the reports) | <p>In order to implement the Regulation on cross-sectoral mechanism and social care to prevent and reduce child mortality and children aged up to 5 years at home, approved by Government Decision no. 1182 of 22 December 2010, the order of the Minister of Health and Minister of Labor, Social Protection and Family no. 205/250 of 21 March 2011 "on the fulfillment of the Government Decision no. 1182 of 22 December 2010 "was approved. Subsequently, an Action Plan, Implementation Guideline, a Regulation for inter-sectoral cooperation and composition of national inter-ministerial coordination council was adopted.</p> <p>To successfully promote inter-sectoral cooperation mechanism at the level of municipalities / district plans, Joint Councils for management of the implementation of activities of the municipal / district plants to prevent home deaths of children under 5 years from vulnerable families, were set up. In 2011, these councils tackled the problems of home deaths of children under 5 years from vulnerable groups, highlighting all the health and social problems faced by the family. All the necessary measures in these cases were undertaken.</p> <p>Thus, in 2011, community social workers, family doctors / nurses family through active interaction with community members in the country, identified, assessed and put on record 10,153 children aged up to 5</p> |

| a) Name of the issue (mentioned in question 5.5 above) | Providing effective assistance to families and the individuals within them who are affected by specific problems |
| b) Achievements (cite the reports) | <p>Social aid is granted under the Law on social assistance no. 133-XVI of 13 June 2008, which aims at providing a minimum guaranteed monthly income to disadvantaged families by offering them social support, established in accordance with the average monthly income of the family and with its need to receive social assistance. Social support has been designed as a basic program of the Government to support poor people, in the context of Government's strife to eradicate poverty. At present it has two basic components - social aid and assistance for the cold season.</p> <p>The social assistance is granted by determining financial eligibility and allowance amount using the income gap. The amount of the allowance represents the difference between the minimum guaranteed monthly income and the monthly income of a family. This figure is assessed on the basis of the family structure, in order to ensure that every family enjoys a minimum level of welfare, allowing a variation between family size and composition. The selection of beneficiaries is based on socio-economic situation of the family, using welfare criteria and eligibility for people of working age.</p> <p>According to the Regulation on the calculation and payment of social aid, approved under Government</p> |

| | |
|------------------|--|
| | <p>Decision no. 1167 of 16 October 2008, the holder of social support or, if applicable, of assistance for the cold season, is the applicant and his/her family is the beneficiary.</p> <p>The study carried out by independent analytical center "Expert Grup" shows that this allowance is the most efficient in combating poverty, 62% of beneficiaries are placed in the bottom decile and 21% in decile II. Calculations performed in this study show that 85% of the money allocated in social allowances are earmarked to the poorest households (in deciles I and II).</p> <p>According to the Ministry of Economy, the implementation of the new welfare system was one of the main factors that had significant impact on the evolution of poverty, especially in rural areas. Thus, in 2010 the poverty rate in Moldova showed decreasing trends, the share of poor people was 21.9%, by 4.4% less against 2009. At the same time, after the negative evolution in rural poverty rates registered during years 2007-2009, a decrease of 6% in poverty rate was recorded in 2010. Thus, the share of poor people made 30.3%.</p> <p>Benefits obtained in 2011 due to the implementation of the social allowances system were also praised by the experts of the International Monetary Fund. The shift from the old system of nominative compensations to the social assistance system was described by them as one of the most important structural reforms implemented by the Government, with significant impact on vulnerable groups of the population. They also recommended that the transition process in parallel with capacity building in the field and adequate access to social assistance should be sped up.</p> <p>In 2011, about 80,000 needy families benefitted from social allowances (compared to 60,107 families in 2010 and to 33,232 families in 2009). Note that about 80% of beneficiary families (especially those in rural areas) had at least one child. The average amount of allowances for families with children was over 800 MDL. In other cases the average amount of the allowances was about 680 MDL in 2011.</p> <p>The total amount of funds for social allowances stood in 2009 at 114 million MDL, in 2010 at 283.7 million MDL and in 2011 at 330.1 million MDL.</p> <p>The social support helps reduce poverty through money transfers to households and significantly backs people in the education and health fields (<i>food, education and health, these are the main directions in the use of social support</i>), and therefore contributes to long-term economic growth and poverty reduction. 6.7. Achievements in addressing issues related to sexual and reproductive health and reproductive rights.

Among the issues related to sexual and reproductive health and reproductive rights that are most relevant in the national context, briefly list achievements (citing reports), and comment on facilitators and barriers. List as many issues as are deemed relevant by copying this table – each table is for one (1) identified issue.

| ICPD issues regarding sexual and reproductive health and reproductive rights relevant to the national context | |
|---|--|
| a) Name of the issue (mentioned in question 6.6 above) | Access to antenatal care |
| b) Achievements (cite the reports) | Coverage of 78% of pregnant women with mandatory antenatal health services (Annual Health Statistics, 2011). |
| c) Facilitators* | 4 |
| d) Barriers* | 99 - 78% coverage with antenatal care before 12 weeks of pregnancy is a low one. Ministry of Health and NHIC established a performance indicator related to antenatal care. Still prognosis is not so well. The main reason for not getting antenatal care before 12 weeks of pregnancy is that a significant number of birth age women are working abroad and do not have any access to antenatal care. They are coming in country for getting birth and did not benefited at all by antenatal care or only some interventions but not all package of services. |
