ECONOMIC COMMISSION FOR EUROPE

INLAND TRANSPORT COMMITTEE

World Forum for Harmonization of Vehicle Regulations (WP.29)

Working Party on Lighting and Light-Signalling (GRE)
(Fifty-third session, 4-8 October 2004,
agenda item 9.3.)

PROPOSAL FOR DRAFT AMENDMENTS TO REGULATION No. 6

(Direction indicators)

Transmitted by the expert from the Working Party "Brussels 1952" (GTB)

Note: The text reproduced below was prepared by the expert from GTB in order to clarify Regulation No. 6 with regard to devices having multiple light sources.

Note: This document is distributed to the Experts on Lighting and Light-Signalling only.

A. PROPOSAL

Paragraph 6.1., the table, columns 3, 4 and 5 (entitled "Maximum values in cd when used as"), add the reference to footnote 3/ to the values in the lines for direction indicator of category "2a", "3 towards the rear", "4 towards the rear", "5" and "6".

In footnote 3/, second paragraph, delete the first square brackets and the text in square brackets.

* * *

B. JUSTIFICATION

At the present state of design, the conditions covered by footnote 3/ apply to all devices covered by columns 3, 4 and 5 of the table. As footnote 3/ itself already refers to category 2a, it can be assumed that it was omitted by error, which could be remedied by a corrigendum.

The text in square brackets in footnote 3/ is already in paragraph 1.2.
