

INF. 10

Working Party on the Transport
of Dangerous Goods
(Seventysixth session,
Geneva, 3 -7 May 2004)

Part 3 of ADR

Table A, entry for UN 3375, liquids

Transmitted by the Government of Norway

1. Background

Unfortunately we have made an oversight in transforming the tank codes for UN 3375 from the 13. revision of the UN Recommendations ST/SG/AC.10/Rev.13 (Vol. I) into ADR/RID.

In column (10) of Table A in the UNRTDG, both “T1” and “T2” are listed for UN 3375. In transforming this into ADR/RID “T1” is listed in **TRANS/WP15/178, page 40** both for the solid and the liquid entry.

On the other hand for RID in OCTI/RID/Not.40c) T2 is listed for the solid and liquid entry.

The ~~use of~~ **difference between** the tankcodes “T1” and “T2” is described in 6.7.2.6.2 and 6.7.2.6.3.

2. Proposal

To rectify this oversight, Norway proposes to change **in ADR** the “T1” in column 10 for the liquid entry for UN 3375 to “T2”. **RID should be amended accordingly.**
