

INLAND TRANSPORT COMMITTEE

Working Party on the Transport of Dangerous Goods(Eightieth session,
Geneva, 8-12 May 2006)**Chapter 9.2****Compliance of vehicles with regard to braking equipment****Transmitted by the Government of France****SUMMARY**

Executive Summary:	Confirmation of the amendments provisionally adopted concerning braking equipment
Action to be taken:	Adopt the amendments to notes d and g of the table in 9.2.1. Delete the amendment for a new note h.
Related documents:	ECE/TRANS/WP.15/186

During the last meeting, the Working Party provisionally adopted changes to notes d and g of the table in 9.2.1 and a new note h applicable to the row concerning 9.2.3.1.

In document ECE/TRANS/WP.15/186, these amendments are in square brackets because they need to be confirmed.

We consider that there are no problem with the texts proposed for notes d and g, but we don't see the need to have the new note h.

It was proposed to add the reference to "automatic brake adjusters" because it seemed to be a difference between the requirements of Regulation No13, 06 series of amendments and Directive 91/422/EEC.

Checking these requirements we didn't find any difference. Therefore we propose to delete this new note which is not necessary and which may introduce some confusion.
