“There exist to this end different types of infrastructure which provide several degrees of separation between **cycles and motor vehicles** such as cycle lanes which are an integral part of the carriageway or, even better, cycle tracks; which are completely separate from the carriageway (see on this subject the definitions introduced in the Vienna Convention on Road Traffic in Article 1 (g bis) and (g ter) and in the Vienna Convention on Road Signs and Signals in Article 1 (e bis) and (e ter) by the amendments which entered into force on 28 March 2006).”
