INLAND TRANSPORT COMMITTEE

Working Party on the Transport of Dangerous Goods

Eighty-fourth session

Geneva, 5-8 May 2008

Item 5 (a) of the provisional agenda

PROPOSALS FOR AMENDMENTS TO ANNEXES A AND B OF ADR

Correction to ECE/TRANS/WP.15/195 - paragraph 6.2.3.6.2

Transmitted by the Governments of France and United Kingdom

The existing procedure for the approval of pressure receptacles in 6.2.1.4 of ADR 2007 is different depending on the test pressure capacity product (PH .V).

The same principle was introduced in the draft table of 6.2.3.6.1 of ADR 2009.

In September 2007, based on a Swedish proposal, the Joint Meeting decided to simplify the table to keep one single procedure for all kinds of pressure receptacles.

The requirement of 6.2.3.6.2 is therefore no longer relevant and should be deleted.
