

Transmitted by the expert from India

Informal document No. GRB-51-07
(51th GRB, 15-17 February 2010
agenda item 4(b))

Information from India on ECE Regulation No. 51
(Noise of M and N Categories of Vehicles)
(Ref. ECE/TRANS/WP.29/GRB/48, para. 8)

Agenda item 4(b) New sound limit values

In the 50th session of GRB, India had offered to forward additional data to the expert from EC (see para. 8 of report ECE/TRANS/WP.29/GRB/48). All the tests carried out on vehicles of Indian manufacturer for certification according to ECE Regulation No. 51 have been carried out by European Technical Services (TUV, VCA, RDW etc.) and it is presumed that these information has already been captured in the data base of EU expert. Hence, India does not have any additional data.
