CHANGE CONTROL LIST

VERSION	DATE	NAME	DESCRIPTION

The CORTE website is setting up a tool enabling Card Issuing Authorities to securely exchange information electronically (and free of charge). For the tool to be operational, each country needs to appoint a "national supervisor". The role of the supervisor is to create and modify experts contacts related to her/his own country. This supervisor will also serve as the point of contact for CORTE. The following table presents the list of national supervisors.
