At the thirtieth session, the Danube Commission had proposed to contribute to the work on ADN by preparing a handbook with questions and practical exercises for the training of safety advisers, that ADN Contracting Parties would be required to use. There was no consensus on this issue but the secretariat was invited to provide the Danube Commission with the contact details on competent authorities in order to help the Danube

Commission collecting information (see ECE/TRANS/WP.15/AC.2/2017/14 and ECE/TRANS/WP.15/AC.2/62, paras 38-41).

Since then, the Danube Commission has collected questions and answers from the governments of Austria, Bulgaria, Romania, Slovakia and Ukraine. For reasons of confidentiality, only questions will be circulated before the session and only to Heads of governmental delegations. The Safety Committee may wish to discuss the issue and decide follow-up action as deemed appropriate.

It is recalled that Contracting Parties are invited to submit their model expert certificates to the UNECE secretariat so that the secretariat can make them available on the website. Countries are also invited to share their statistics on examinations.
