Item 6 (b) of the provisional agenda

Proposals of amendments to ATP: new proposals

Incorporation of a new subtitle

Transmitted by the Government of Spain

Summary

Executive summary:	Incorporation of a new subtitle called “Non-independent equipment” in Section 6.2 “Mechanically refrigerated equipment” of Appendix 2 to Annex 1 of the ATP.
Action to be taken:	Modification of the structure for further clarity.
Related documents:	None.

Introduction

1. It is proposed to include a subtitle into section 6.2 of Appendix 2 to Annex 1, which will complete the structure of section 6.2 dedicated to the “Mechanically refrigerated equipment”, distinguishing between “Independent equipment” (which would include subsections i) and ii)), and the new subtitle called "**Non-independent equipment**" that would include subsections iii) and iv).
2. The existing structure is confusing because it seems that all four cases numbered i-iv are part of the independent equipment, which is not the case. The proposed amendment would provide further clarity to the text.

Proposal

3. It is proposed in Annex 1, Appendix 2, section 6.2, dedicated to the mechanically refrigerated equipment, to add a new subtitle before subsection iii) to read as follows:

“Non-independent equipment”.
