**4<sup>th</sup> Expert Group Meeting on Developing Euro-Asian Transport Linkages**

(21 – 24 November, 2006 Thessaloniki, Greece)

**Document 1. Review of the Euro-Asian Transport Linkages**

*For discussion under Agenda Item 2 Review of the Work Done on Developing a  
Euro-Asian Transport Network*

**Introduction**

The 3<sup>rd</sup> Expert Group Meeting, held in Istanbul, Turkey (27 – 29 June, 2005) adopted a set of Euro-Asian Transport routes for i) rail; ii) road; iii) inland water transport; and iv) inland river ports along the selected inland water routes, as the basis for further cooperation and development. The secretariat, in close cooperation with the GIS consultant, carefully reviewed the routes and identified those sections, which require further clarification by countries. The secretariat also took the proposals received from countries since the 3<sup>rd</sup> EGM and considered them in the context of the existing routes.

The current document presents the results of the secretariat's review and proposed changes to the rail, road and Inland Water Transport routes respectively, for the consideration of the 4<sup>th</sup> Expert Group Meeting. The itineraries of these routes, as adopted at the 3<sup>rd</sup> EGM, and the proposed amendments, are reproduced in Annex I of this document.

**Part I. Proposed Amendments to Rail Routes**

**1.g. Nikeltay – Kandagach – Makat – Oazis (- Aktau port):** in order to provide access from Caucasus via the Caspian Sea to far eastern Russian ports, propose moving to Route Group 6 as branch 6.d. and replacing with: Aktau (port) – Beyneu - Makat - Kandagach – Nikeltay – Chelyabinsk

**2. Brest – Minsk – Moscow – Yekaterinburg – Kurgan – Astana – Drujba – Urumqi – Lianyungang (Port) / Shanghai (Port):** remove reference to E50.

The representative of Iran is also invited to clarify the status of the section located within its territory, i.e. between Nourdouz and Jolfa. Possible formulation would be to extend 3.b. to read read: Tbilisi – Sadakhlo – Gyuri – Yerevan - ... **3.d. Mostiska/Chip – Uzhgorod...Mineralijnie Vodi – Vladikavkaz – (Tbilisi) – Makhachkala (Port) – Aktau (Port) – Beyneu:** The representative of Georgia proposed to link Road Route Group 3 to Tbilisi through a branch from Vladikavkaz. The Georgian section is part of Asian Highway 81. The representative of the Russian Federation is invited to confirm the acceptance of this proposal for the section from Vladikavkaz to the border with Georgia.

**3.e. Rostov-na-Donu – Krasnodar – Novorossijsk (Port) – Kafkas (Port) – Samsun (Port) / Poti/Batumi (Port) / Burgas (Port) and 3.f. ### **Part III. Proposed Amendments to Inland Water Transport Routes and River Ports**

In the context of the EATL routes, the Inland Transport Water linkages and their river ports adopted at the 3<sup>rd</sup> EGM should be viewed as part of a larger transport system involving the EATL rail and road routes. It is not clear whether all of the inland river ports nominated at the 3<sup>rd</sup> EGM are important in the context of the Euro-Asian Transport Linkages.

Countries are therefore requested to review the inland river ports listed contained in Annex III. and confirm the inclusion of their ports. Furthermore, the secretariat invites countries to provide additional information on the following:

- a. At the 3<sup>rd</sup> EGM, the representative of the Russian Federation stated that the list of river ports to be included from her country would be confirmed by the relevant authorities. As no response was received, the secretariat identified a number of major inland river ports from the European Agreement on Main Inland Waterways of International Importance (AGN) (1996). The secretariat invites the Russian Federation to confirm the inclusion of these ports.
- b. Tajikistan nominated Nizhniy Panj river port (on the border with the Islamic Republic of Afghanistan) as an inland river port. However, the inland water route on which this port is located is not included as one of the EATL inland water transport routes. The secretariat therefore seeks clarification from Tajikistan on whether it would like to include this port, and if so, whether the river it serves should be included as an IWT of international importance in the context of the Euro-Asian Transport Linkages.
- c. The Irtysch and Ob rivers, which traverse the territories of the Russian Federation and Kazakhstan, are currently not part of the AGN. The secretariat would like to seek clarification as to whether these rivers should be included as an IWT of international importance in the context of the Euro-Asian Transport Linkages, as well as whether the countries concerned are planning to undertake necessary actions in order these IWT routes become part of the AGN.

**Annex I. Rail, Road and Inland Water Transport Routes and Inland River Ports adopted by the 3<sup>rd</sup> EGM (June 2005) and with proposed amendments (shown in bold)**
