

National Peer Review

INTERMODAL TRANSPORT

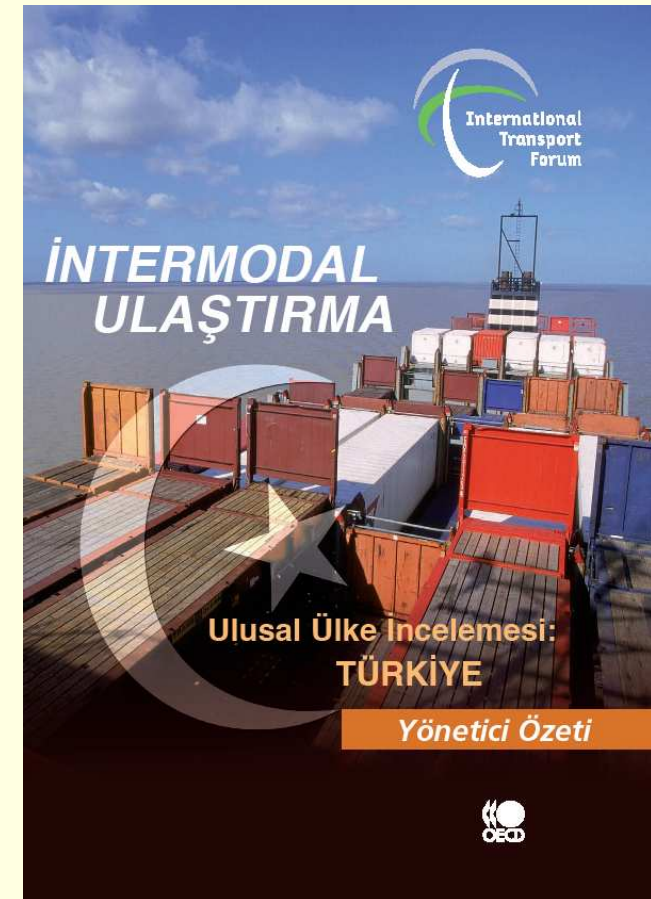

Ministry of Transport and Communications

Directorate General for Land Transport
Nurhan TÜFEKÇİOĞLU

Geneva, 12-13 October 2009

GENERAL

- Study carried out by ITF
- Study began in September, 2006.
- For experts worked
 - Martin Magold
 - Christian Reynaud
 - Christoph Seidelmann
 - Wouter van Zijst

Why Intermodal Transport?

NATIONAL PEER REVIEW - TURKEY

- Great potential of Turkey for intermodal transport
- Wish to become a logistic center between the East and West
- Need a legal basis
- See weak and strong points

Main Pillars of This Study?

PART I

- Main Economic Indicators of Turkey
- Social and economic situation analysed

PART II

- Actual situation of each mode of transport evaluated as regards;

- Network

- Transport operation

- Administration framework

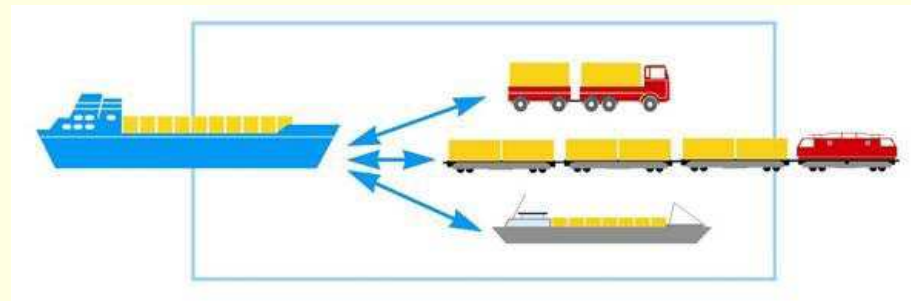

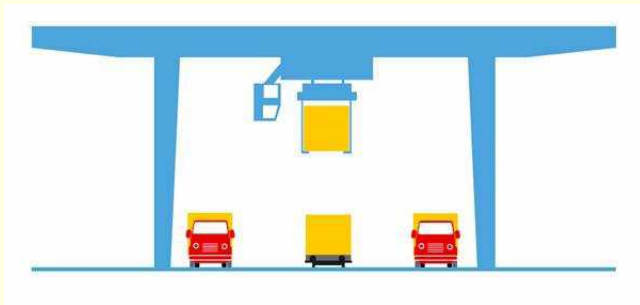

- Ongoing projects

- Future developments and challenges

PART III

- Requirements for efficient intermodal transport systems taken up
- Some various techniques shown

PART IV

- Choice of the best intermodal system presented
- Recommendations made to develop intermodal transport

What are these recommendations?

RECOMMENDATIONS

- A comprehensive intermodal strategy
- National Master Plan
- Clear Policy and Legal Framework
- Incentives to promote intermodal transport
- Defining corridors by a market analysis

RECOMMENDATIONS (CONT'D)

- Extention of succesfully implemented Ro-Ro systems to other regions
- Improvement of the hinterland connections of ports with the other modes of transport

THANK YOU

Nurhan TÜFEKÇİOĞLU
