

# Transport Community

2022 Road year

# 2022 Road year

---

- Ministerial level “Declaration on Roads of the Future – Safe, Smart and Sustainable”
- [Memorandum of Understanding between Road Authorities and public Enterprises on cooperation for the sustainable development of the of the road TEN-T network](#)
- Capacity building:
  - ✓ Road Summer School
    - Road Transport Policy
    - Road Safety
    - Smart and sustainable development of road transport policy
    - Corridor Vc – Traffic Control Center demonstrative visit

# Transport Observatory

## Transport Community's flagship project:

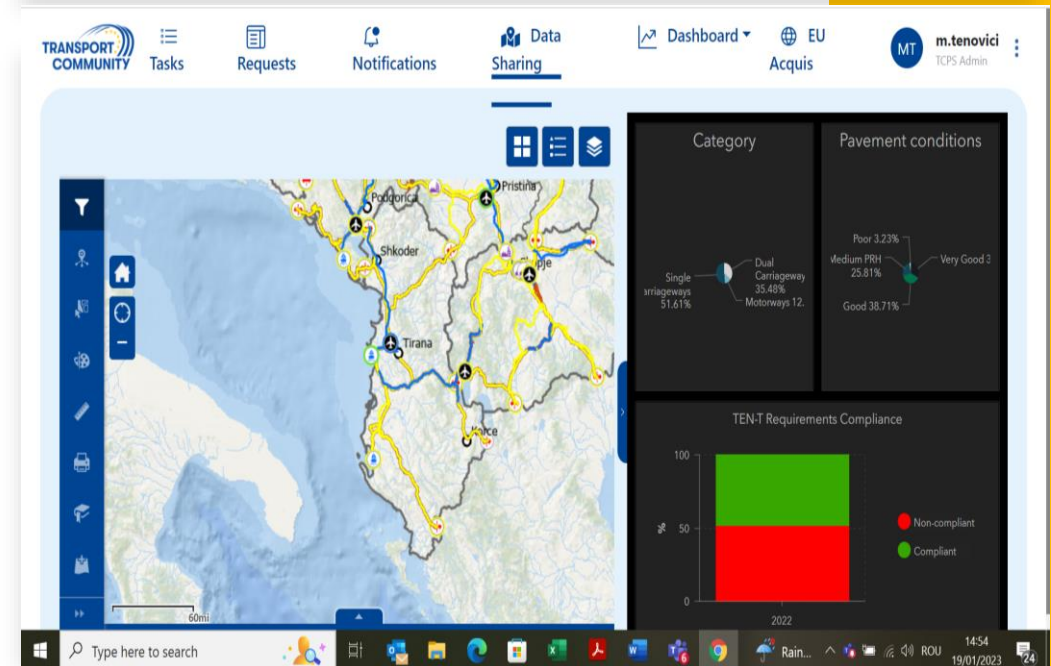

- Performance monitoring of the TEN-T network in Western Balkans
- Key inputs for TEN-T projects planning and prioritisation
- Monitoring of the EU transport acquis transposition process within the 6 South East European Parties of the Transport Community

## Two main analytical tools:

- The Transport Observatory Database/Information System (TODIS)
- The Regional Transport Model (to be developed at a later stage)

TODIS is currently under testing and shall soon be made publicly available via TCT website

Further cooperation is currently envisaged with ITC's Transport Observatory

# Road Safety and Western Balkans RS Observatory

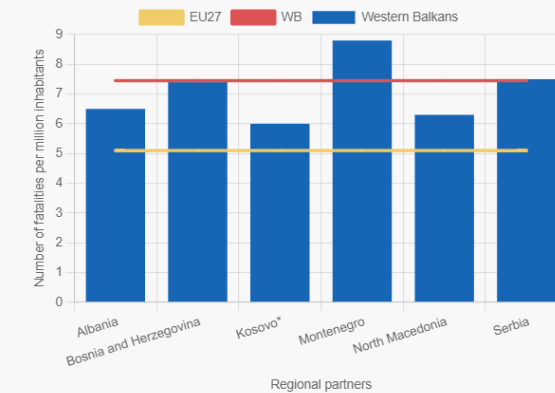

- **Regional Road Safety Action Plan**

- Adoption of Road Safety Strategies with the aspirational targets for halving the number of fatal and serious road traffic injuries from 2021 to 2030
- Adopting a Safe System Approach
- Collecting Key Performance Indicators using a harmonised methodology

- **Western Balkans Road Safety Observatory**

- offers a tailored solution
- monitors road safety targets
- contributes to harmonised road safety data in the region.

Number of road fatalities per 100,000 inhabitants in Western Balkans

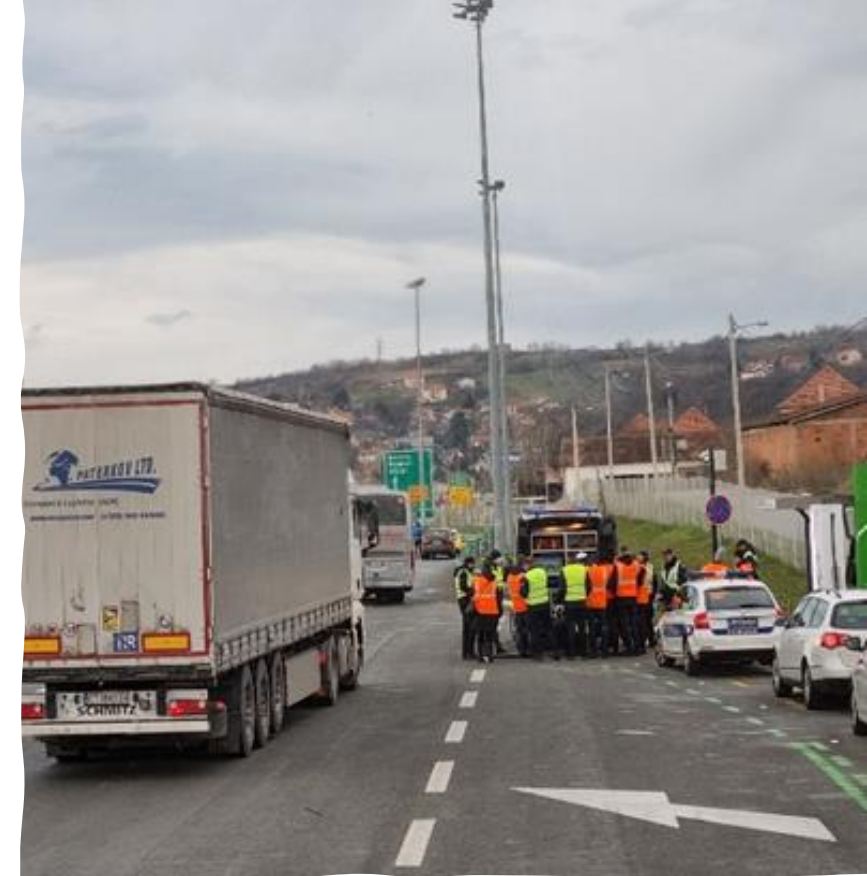

# Enforcement of road transport rules

---

## Workshop on enforcement of road transport rules, including tachographs

- ✓ Poland - General Inspectorate of Road Transport
- ✓ Tailored program for inspections in the region
  - Belgrade, December 2021
  - Skopje, June-July 2022

# Rail & Transport Facilitation

- **Rail**

- ✓ Market opening & passenger rights
- ✓ Establishment of a functional Institutional Framework
- ✓ Interoperability and Safety
- ✓ Modernisation of Infrastructure
- ✓ Adoption of the Multiannual Maintenance Plans
- ✓ EEVR Access

Cooperation with  
ERA, EU's Rail JU

- **Transport Facilitation**

- ✓ EU Western Balkans Green Lanes Initiative speeds up due to joint efforts of TCT and CEFTA Secretariats; currently GL extended between North Macedonia-Greece, Bosnia and Herzegovina-Croatia and Montenegro-Croatia, as well as between Albania-Italy and Montenegro-Italy (Blue Lanes)

# Transport of Dangerous Goods

- 1<sup>st</sup> Progress Report on the implementation of the Guidelines adopted in 2021
- Key areas of work:
- Directive 2008/68/EC => application to national transport of ADR, RID and ADN
- Enforcement => Directive 95/50/EC
- ❖ **Workshop ADR roadside checks**=> Romania & State Inspectorate for Road Transport Control (ISCTR), Bucharest – September 2022
- ❖ **Back-to-back works** of the Committees on TDG, Waterborne and electronic freight transport => Belgium & Port of Antwerp – December 2022
