Things to Do

Welcome to the 19th session of the UNECE Working Party on Automated/Autonomous and Connected Vehicles (GRVA), hosted by our esteemed North American experts, SAE International. It is the first time ever a meeting of GRVA takes place outside Europe.

As we convene in Michigan, the birthplace of the North American automotive sector, we are reminded of the historical significance of the venue and the vital role it plays in shaping the future of mobility.

This gathering marks a pivotal moment in our collective mission to develop the regulatory framework for automated driving systems which will support the new mobility of the future.

Beyond our shared commitment to advancing the cause of the Harmonization of Vehicle Regulations within WP.29 in terms of safety, environmental performance and harmonization, this meeting serves as a token of appreciation to our North American Colleagues. Despite the challenge posed by the COVID-19 pandemic, their unwavering dedication saw them participating in countless meetings remotely, often at unsociable hours. Even more, this session is a positive sign for the global collaboration and commitment on the harmonization in the area of automated driving.

We extend our gratitude to the US Governmental representatives for this opportunity and our host, SAE International, for graciously opening their doors and facilitating for this important meeting. Together let us continue to forge ahead in our pursuit of safety, and sustainability, driving progress in the automotive industry and beyond

Richard Damm

Chair of the Working Party on Automated/Autonomous and Connected Vehicles

UNECE GRVA

On behalf of SAE International, it is our distinct pleasure to extend a warm welcome to you as we prepare to convene for the United Nations WP.29 GRVA Meeting in Troy, Michigan, USA.

This marks a significant milestone, as it is the first time that the GRVA will be gathering outside of its traditional location.

The decision to host this esteemed event at SAE speaks volumes about the central role our community plays in guiding the development of automated, autonomous, and connected vehicles.

Throughout the week, you can expect a diverse array of activities including a series of technology demonstrations and on-site ride-and-drive opportunities. We extend our heartfelt gratitude to our exhibitors for their invaluable participation and unwavering support. Your presence not only enriches the experience of our attendees but also plays a crucial role in ensuring the success and cost recovery of this meeting.

As we come together, we encourage you to embrace this unique opportunity to exchange ideas, share insights, and forge meaningful connections with your peers. Together, we have the power to drive progress and influence the evolution of mobility. We are confident that this meeting will be a resounding success, thanks to your expertise, dedication, and unwavering commitment to advancing our shared goals. We look forward to welcoming you to “The Motor City,” and to the transformative discussions and collaborations that lie ahead.

Here’s to a week filled with inspiration, innovation, and impactful dialogue.
