Ref Case ACCC/C/2012/ Denmark: Motion for a further extension of the deadline for comments by the Party

Dear Aphrodite Smagadi

With reference to letter of October 8 2012 concerning case ACCC/C/2012/67 Denmark regarding motion for suspension of the Case, alternatively motion for an extension of the deadline for comments until November 9 2012 and your email dated October 12 2012, I regret to inform you that unfortunately it is not possible to keep the deadline to respond November 9.

The case is comprehensive and complex and the legal issue presented in the communication is right now pending before the Danish Western High Court. Actually the defence statement has only just been finalised and delivered to the High Court today (November 9). The legal documents for the High Court has been prepared by the Legal Adviser to the Danish Government (Kammeradvokaten). Now the Ministry of the Environment needs time for further consultations with Kammeradvokaten in order to coordinate the information and the legal arguments submitted to the Court and to the Compliance Committee. Further time is also needed for approval by the Minister and for translation.

Therefore a further extension of the deadline to respond for the Party concerned to 4. December 2012 is requested.

Yours sincerely

Karin Bruun
