Ämne: RE: Request for access to ES proposal for decision

Dear Mrs Karlsson

Regarding your question and after consultation with the National Authority in Spain we consider this information confidential due to the revision of the active substance Chlorpyrifos is on going in the peer review coordinated by EFSA.

Best regards

José Luis Alonso Prados

Asunto: Request for access to ES proposal for decision

Dear Sirs and Colleagues,

The Swedish Chemicals Agency has received a request for access to information regarding the recommendation with regard to the renewal of the approval for chlorpyrifos (pages 451 – 454 in Volume 1 of the draft RAR, produced by Spain). The request will be assessed according to Swedish Public Access to Information and Secrecy Act (SFS 2009:400).

To simplify our assessment of whether the information is to be considered confidential, it would help to know whether you consider the recommendation with regard to the renewal of the approval for chlorpyrifos as confidential information?

Please note that requests for access to information in Sweden are to be handled promptly and we would therefore very much appreciate your response as soon as possible.

Kind regards,

Sylvia Karlsson
