Subject: Spanish Cases

Dear Aarhus Compliance Team:

I will try to express my opinion regarding the MoP decision
(<http://www.unece.org/environmental-policy/treaties/public-participation/aarhus-convention/envpptfwg/envppcc/envppccimplementation/fourth-meeting-of-the-parties-2011/spain-decision-iv9f.html>).

1. Spanish Kingdom did not comply with the recommendations because of the following facts:
 - a. Murcia City municipality has not change the land use information tax regulation and the price is still 2,15 € per page.
 - b. Murcia Region Government has not change the Land Use Law to introduce enough timeframes for public participation.
2. I had no access to the progress report (can you send it to me?)
3. The final study about access to justice is correct.

Eduardo Salazar Ortuño
