Subject: Re ACCC/A/2020/2

Dear Aarhus Secretariat team,

The attached document was drawn to my attention today in the context of a separate matter. The document appears to be a submission from CSOs on remote engagement at EU level in the context of the pandemic and is entitled: "*Civil Society Principles and Recommendations on Ensuring Civil Society Access and Meaningful Participation in UN Discussions During the COVID-19 Pandemic*". It struck me on reading it that it may be that there are considerations within it, which may be useful for the Committee's consideration of its advice on remote video hearings, further to the request for Advice from Kazakhstan, your reference ACCC/A/2020/2. So I offer it for the Committee's further consideration in that context, if and as appropriate.

Kind Regards
