ADMINISTRATIVE COMMITTEE FOR THE TIR CONVENTION, 1975

TIR Executive Board (TIREXB)

(Thirty-second session, 29 and 30 March 2007, agenda item 8 b))

PROPER USE OF THE TIR CARNET

Best practices with regard to the use of the TIR Carnet

Note by the TIR Secretary

- 1. In 2005, best practices with regard to the use of the TIR Carnet were included in the programme of work of the TIRExB, namely a step-by-step instruction how to fill-in the TIR Carnet and an example of best practices on the use of the TIR Carnet by the Customs offices of departure, destination and <u>en route</u>. To start with, the Board invited Contracting Parties to share their national regulations on the filling-in of the TIR Carnet. Following this request, the Customs administrations of Finland and the Russian Federation kindly provided the secretariat with their national regulations. On the basis of the received contributions, the secretariat has produced a first example of best practices (annex to the present document) which the Board may wish to consider.
- 2. In general, best practices concerning the use of the TIR Carnet should complement the example of the TIR Carnet duly filled-in (Chapter 7 of the TIR Handbook). Apart from a step-by-step instruction how to fill-in the TIR Carnet, the example should cover some other aspects such as:

Informal document No. 5 (2007)/Rev.2 Page 2

- best practices with regard to handling the vouchers of the TIR Carnet by various Customs offices (departure, destination and <u>en route</u>) in the course of a TIR transport, in particular, in the case of several Customs offices of departure and/or destination;
- recommendations how to use the TIR Carnet in a number of specific situations which rarely occur in practice (simultaneous or consecutive use of several TIR Carnets, accidents and force majeure, physical examination en route, Customs escorts, etc.).

The respective sections will be added to the example at a later stage.

Annex

BEST PRACTICES WITH REGARD TO THE USE OF THE TIR CARNET

- I. General rules regarding the use of the TIR Carnet (Annex 1 to the TIR Convention)
- 1. <u>Issue</u>: The TIR Carnet may be issued either in the country in which the holder is established or resident or in the country of departure.
- 2. <u>Language</u>: The TIR Carnet is printed in French, except for page 1 of the cover where the items are also printed in English; the TIR Carnet contains the «Rules regarding the use of the TIR Carnet» in French on page 2 of the cover and in English on page 3 of the cover. Additional sheets giving a translation of the printed text may also be inserted.

Carnets used for TIR transports within a regional guarantee chain may be printed in any other official language of the United Nations except for page 1 of the cover where items are also printed in English or French. The "Rules regarding the use of the TIR Carnet" are printed on page 2 of the cover in the official language of the United Nations used and are also printed in English or French on page 3 of the cover.

- 3. <u>Validity</u>: The TIR Carnet remains valid until the completion of the TIR transport at the Customs office of destination, provided that it has been taken under Customs control at the Customs office of departure within the time-limit set by the issuing association (item 1 of page 1 of the cover).
- 4. <u>Number of Carnets</u>: Only one TIR Carnet need be required for a combination of vehicles (coupled vehicles) or for several containers loaded either on a single vehicle or on a combination of vehicles (see also rule 10 d) below).
- 5. <u>Number of Customs offices of departure and Customs offices of destination</u>: Transport under cover of a TIR Carnet may involve several Customs offices of departure and destination but the total number of Customs offices of departure and destination shall not exceed four. The TIR Carnet may only be presented to Customs offices of destination if all Customs offices of departure have accepted the TIR Carnet (see also rule 10 e) below).
- 6. <u>Number of forms</u>: Where there is only one Customs office of departure and one Customs office of destination, the TIR Carnet must contain at least 2 sheets for the country of departure, 2 sheets for the country of destination and 2 sheets for each country traversed. For each additional Customs office of departure (or destination) 2 extra sheets shall be required.

7. <u>Presentation at Customs offices</u>: The TIR Carnet shall be presented with the road vehicle, combination of vehicles, or container(s) at each Customs office of departure, Customs office en route and Customs office of destination. At the last Customs office of departure, the Customs Officer shall sign and date stamp item 17 below the manifest on all vouchers to be used on the remainder of the journey.

II. How to fill-in the TIR Carnet

- 8. <u>Erasures, over-writing</u>: No erasures or over-writing shall be made on the TIR Carnet. Any correction shall be made by crossing out the incorrect particulars and adding, if necessary, the required particulars. Any change shall be initialled by the person making it and endorsed by the Customs authorities.
- 9. <u>Information concerning registration</u>: When national legislation does not provide for registration of trailers and semi-trailers, the identification or manufacturer's No. shall be shown instead of the registration No.

10. The manifest:

- (a) The manifest shall be completed in the language of the country of departure, unless the Customs authorities allow another language to be used. The Customs authorities of the other countries traversed reserve the right to require its translation into their own language. In order to avoid delays which might ensue from this requirement, carriers are advised to supply the driver of the vehicle with the requisite translations.
- (b) The information on the manifest should be typed or multicopied in such a way as to be clearly legible on all sheets. Illegible sheets will not be accepted by the Customs authorities.
- (c) Separate sheets of the same model as the manifest or commercial documents providing all the information required by the manifest, may be attached to the vouchers. In such cases, all the vouchers must bear the following particulars:
 - (i) the number of sheets attached (box 8);
 - (ii) the number and type of the packages or articles and the total gross weight of the goods listed on the attached sheets (boxes 9 to 11).
- (d) When the TIR Carnet covers a combination of vehicles or several containers, the contents of each vehicle or each container shall be indicated separately on the manifest. This information shall be preceded by the registration no. of the vehicle or the identification no. of the container (item 9 of the manifest).

Informal document No. 5 (2007)/Rev.2 Page 5 Annex

- (e) Likewise, if there are several Customs offices of departure or of destination, the entries concerning the goods taken under Customs control at, or intended for, each Customs office shall be clearly separated from each other on the manifest.
- 11. <u>Packing lists, photographs, plans, etc</u>: When such documents are required by the Customs authorities for the identification of heavy or bulky goods, they shall be endorsed by the Customs authorities and attached to page 2 of the cover of the Carnet. In addition, a reference shall be made to these documents in box 8 of all vouchers.
- 12. <u>Signature</u>: All vouchers (items 14 and 15) must be dated and signed by the holder of the Carnet or his agent.
- 13. Instructions how to fill-in individual boxes of the TIR Carnet are given in table 1 below.

III. Handling the vouchers of the TIR Carnet by various Customs offices in the course of a TIR transport

14. To be added at a later stage...

IV. Use of the TIR Carnet in non-standard situations

A. Incidents or accidents, certified report

- 15. In the event of Customs seals being broken or goods being destroyed or damaged by accident en route, the carrier shall immediately contact the Customs authorities, if there are any near at hand, or, if not, any other competent authorities of the country he is in. The authorities concerned shall draw up with the minimum delay the certified report (last page of the TIR Carnet). If authorities other than Customs have drawn up the certified report, on the first occasion the holder must inform Customs about the incident or accident, as only Customs can decide whether the road vehicle is suitable for further transport under Customs seal and affix such seals for the remainder of the journey. In addition, only Customs can ensure the proper control over the transported goods.
- 16. In the event of an accident necessitating transfer of the load to another vehicle or another container, this transfer may be carried out only in the presence of one of the authorities mentioned in para.15 above. The said authority shall draw up the certified report. Unless the TIR Carnet carries the words « Heavy or bulky goods », the vehicle or container substituted must be one approved for the transport of goods under Customs seals. Furthermore, it shall be sealed and details of the seal affixed shall be indicated in the certified report. However, if no approved vehicle or container is available, the goods may be transferred to an unapproved vehicle or container, provided it affords adequate safeguards. In the latter event, the Customs authorities of succeeding countries shall judge whether they, too, can allow the transport under cover of the TIR Carnet to continue in that vehicle or container.
- 17. In the event of imminent danger necessitating immediate unloading of the whole or of part of the load, the carrier may take action on his own initiative, without requesting or waiting for action by the authorities mentioned in rule 15 above. It shall then be for him to furnish proof that he was compelled to take such action in the interests of the vehicle or container or of the load and, as soon as he has taken such preventive measures as the emergency may require, he shall notify one of the authorities mentioned in rule 17 above in order that the facts may be verified, the load checked, the vehicle or container sealed and the certified report drawn up.
- 18. The certified report shall remain attached to the TIR Carnet. If necessary, the Customs offices of succeeding countries can make copies of the certified report for their own files.
- 19. In addition to the model form inserted in the TIR Carnet itself, associations are recommended to furnish carriers with a supply of certified report forms in the language or languages of the countries of transit.
- 20. The filling-in of the certified report of the TIR Carnet is shown in table 2.
