SUSTAINABLE DEVELOPMENT GOALS
Part 2
Impact Investing in Low and Middle Income Countries
Challenges of Impact Investing in Developing Countries

- Increasing capital in the early stages of the investment pipeline
- Standardized metrics for monitoring and transparency
- Building a robust ecosystem and mechanisms to support impact investing globally
Addressing the Challenges of Impact Investing

Establishment of an online platform to create a pipeline of investors

Accessible data for growing the impact investing market; improved data collection systems through research and knowledge exchange

Adoption of a harmonized global monitoring reporting metrics, covering both social and financial aspects
