### Conference room paper submitted by the secretariat

#### *Summary*

The present document is based on the programme of work of the Committee on Innovation, Competitiveness and PPPs for 2016-2017 (ECE/CECI/2015/9) and 2017-2018 (ECE/CECI/2017/6). It provides additional information on activities planned and proposed for the period between the first and second sessions of the Working Party on PPPs. To facilitate discussion, this document presents outputs grouped by the activities of the UNECE International PPP Centre of Excellence (ICoE), including consultative meetings of the UNECE PPP Business Advisory Board (BAB); and the development of UNECE PPP standards, guidelines, best practices and policy recommendations. The plans and proposals reflect demand expressed by member States. Delegates are invited to bring additional proposals and requests to the Session.

The Working Party is requested to review its work plan and endorse the list of activities planned for 2017-2018.
