Gender and Energy

Presentation by Green Building Alliance
UNECE Committee on Sustainable Energy
Every building and every community is sustainable so every person can thrive
Female Leaders in Sustainable Design, Construction & Energy: Western Pennsylvania
Women+ in Green Network
We are working to:

→ Develop a pipeline of young women into sustainable design, construction, & energy industries through:
  + Encouraging young girls to engage in STEAM-related education in K-12 schooling
  + Increasing awareness of job opportunities
  + Building knowledge and training needed to get jobs in these industries

→ Maintain and grow female leadership in these industries through:
  + Support
  + Mentorship
  + Connections
  + Advocating for gender equality in the workplace

→ Use our collective voice to advocate for women of color in our industries
