

Application for the Adjustment of National Emission Estimates

Introduction

This form has been compiled to support a formal application under the LRTAP Convention for an adjustment to the national emissions inventory, or emission ceiling and/or emission reduction commitment.

Each adjustment procedure shall be identified with a unique reference number. A single application form might include applications for several different adjustments each with their own unique reference (i.e. multiple copies of Table 2).

Table 1: Headline Information

Party	
Date	XX/XX/XXXX
Contact Details	Name of technical contact Organisation e-mail Telephone

Table 2: Adjustment Specific Information

Title	Short Descriptive Title of Adjustment
Reference number	ISO Code/Year/A, B, C...
Rationale	Revised EFs / Revised Methodology / New Source * <i>(delete as applicable)</i>
Summary of the reasons for adjustment application: Provide here background information on the change to the scientific understanding, and an overview of the resulting impacts. This does not have to be a detailed description – details on methodology change, quantification of impacts and justification etc. must be provided in accompanying documentation (see below).	
Pollutants affected	Pollutants
NFR Sectors affected	NFR codes
Years affected	Years
Summary of impact of proposed adjustment: A summary of the detailed quantified analysis should be provided here – for each pollutant and NFR sector. Comments should also be made about the impacts across different years (detailed elsewhere).	
Location of accompanying technical documentation: Detailed technical description of the proposed adjustment to emission inventory, or emission ceiling and/or emission reduction commitment: Expected to be in the national Informative Inventory Report (IIR) (specify chapter), but may be a stand-alone technical report/document. Quantification of the impacts of the proposed inventory adjustment: Expected to be in the IIR (specify chapter), but could be a stand-alone technical report/document. <i>Decision 2012/12 of the LRTAP Convention Executive Body specifies the mandatory accompanying information that must be provided by all Parties for each adjustment application (**).</i>	

A Summary of all adjustments applied for/granted to date:

* Decision 2012/3 of the LRTAP Convention Executive Body provides details of the circumstances under which an adjustment application will be considered. http://www.unece.org/fileadmin/DAM/env/documents/2012/EB/Decision_2012-3.pdf
