## Economic Commission for Europe

Executive Body for the Convention on Long-range  
Transboundary Air Pollution

### Working Group on Strategies and Review

#### Fifty-fifth session

Geneva, 31 May-2 June 2017

Item 4 of the provisional agenda

**Policy response to the 2016 scientific assessment  
of the Convention**

## Policy response to the 2016 scientific assessment of the Convention

### Note by the secretariat

#### Corrigendum

#### 1. Paragraph 18

*For the existing text substitute*

18. The group further recommends that:

(a) The Executive Body and the subsidiary bodies further increase their focus on reactive nitrogen emissions (NH<sub>3</sub> and NO<sub>x</sub>) and their abatement, transport and effects, keeping in mind the full nitrogen cycle and with the aim of increasing nitrogen efficiency (short term);

(b) The Gothenburg Protocol be updated (see sect. B, subsection 3 (a), below) with strengthened ammonia reduction measures, in line with the findings of the Task Force on Reactive Nitrogen and the Guidance Document for Preventing and Abating Ammonia Emissions from Agricultural Sources (ECE/EB.AIR/120) (Guidance on Ammonia Abatement)<sup>5</sup> (long term; Parties, Working Group on Strategies and Review, Executive Body).

#### 2. Paragraph 25 (a)

*For short-term read long term*
