

# Strategy for implementation of the Convention at the Global level

**Sibylle Vermont**  
**Swiss Federal Office for the**  
**Environment**

# Vision

Transboundary waters worldwide are managed through cooperation between riparian countries in order to promote sustainable development, peace and security.

# Objective 1: Increased awareness of and political support for the Convention and transboundary water cooperation

- 1.1 Involving high-level and prominent actors in the promotion of the Convention and of transboundary cooperation
- 1.2 Increasing awareness among “multipliers”
- 1.3 Organizing events to raise awareness on the Convention
- 1.4 Preparing innovative promotional and communication material

# Objective 2: Increased accession to the Convention

- 2.1 Associating Parties to support accession processes at the technical and political levels
- 2.2 Creating a pool of experts on the Convention
- 2.3 Exchanging experience and mutual learning between countries working on accession
- 2.4 Promoting regional approaches to accession

# Objective 3: Increased support for implementation of the Convention and for transboundary water management

- 3.1 Strengthening capacity to accede to and implement the Convention
- 3.2 Using the Convention's reporting as a means to support implementation
- 3.3 Enhancing the impact of guidance material under the Convention
- 3.4 Support to negotiation of new agreements and improved implementation of existing ones through the Convention's network
- 3.5 Exploring new financing models for supporting implementation of the Convention

# Objective 4: Increased support for water-related Sustainable Development Goals implementation, in particular target 6.5, through the Convention

- 4.1 Monitoring and review of progress towards SDG target 6.5
- 4.2 Supporting achievement of SDG target 6.5

# Objective 5: Increased partnerships and synergies with other actors

- 5.1 Promoting a regional approach to the global implementation of the Convention
- 5.2 Strengthening the cooperation with the Global Environment Facility
- 5.3 Consolidating cooperation with long-established partners and enhancing their use of the Convention's framework
- 5.4 Reaching out to new partners: International Financial Institutions, civil society and the private sector
