

UNECE - Task Force on Water and Climate - 10th meeting

Water and Climate Change in the Global Agendas

Maggie White

Senior Manager International policy and AGWA co chair

1.05.2019, Palais des Nations, Geneva

SIWI

Stockholm International Water Institute

- SIWI is a water institute.
- Our vision is a Water Wise World - a world that recognizes the value of water and ensures that it is inclusively shared and used sustainably, equitably and efficiently for all.
- We believe that the best way to tackle water crises and help bring about lasting change is to strengthen water governance among public and private actors alike.
- Essentially, who gets what water, when and how, and who has the right to water and related services, and their benefits.
- SIWI organizes the world leading annual conference on water - World Water Week
- SIWI is a Swedish, independent, not-for-profit foundation.
- Our work is underpinned and guided by our core values: passion, integrity, inclusiveness, and quality

Holistic, intersectorial, multi stakeholder, equitable, sustainable

Wise water governance enables :

- to build a resilient future through water
- adaptation and mitigation solutions
- cost efficient and delivers on multiservices
- dialogue and trust
- social and environmental justice
- local solutions for a global issue
- Efficiently implement the global agendas (SDG, Climate, DRR) @ national and local level

International Processes - 2019

1. 2030 Agenda :

- [HLPF](#) : consultation, Swedish position, policy briefs, side events, declaration; esp SDG 10 (reduced inequalities), SDG 13 (climate action) and SDG 16 (peace, justice and strong institutions)
