Draft decision IS/2 on the applicability of the Convention to the lifetime extension of nuclear power plants

As adopted by the Meeting of the Parties to the Convention on Environmental Impact Assessment in a Transboundary Context, at its intermediary session (Geneva, 5–7 February 2019)

The Meeting of the Parties to the Convention,

Recalling its decision VII/3–III/3 on adoption of the workplan for the implementation of the Convention on Environmental Impact Assessment in a Transboundary Context and its Protocol on Strategic Environmental Assessment for the period 2017–2020, and its decisions VI/7 and VII/6 on the application of the Convention to nuclear energy-related activities,

Recalling also paragraphs 68–71 of its decision VI/2, regarding compliance by Ukraine with its obligations under the Convention with respect to the extension of the lifetime for units 1 and 2 of the Rivne nuclear power plant,

Having considered the terms of reference for guidance on the applicability of the Convention with regard to decisions on the lifetime extension of nuclear power plants developed by an ad hoc working group¹ under the co-chairmanship of Germany and the United Kingdom of Great Britain and Northern Ireland, with support from the secretariat and the European Commission, as adopted by the Working Group on Environmental Impact Assessment and Strategic Environmental Assessment at its seventh meeting (Geneva, 28–30 May 2018),

Having also considered the outcome of the workshop on the lifetime extension of nuclear power plants organized by the ad hoc working group (Geneva, 28 May 2018), as foreseen in the 2017–2020 workplan,² with the participation of the Implementation Committee, non-governmental organizations, the International Atomic Energy Agency and the Nuclear Energy Agency of the Organization for Economic Cooperation and Development,

Having further considered the progress in the work of the ad hoc working group with a view to developing draft guidance under the continued co-chairmanship of Germany and the United Kingdom, based on the terms of reference, as requested by the Working Group³,

Reiterating that the Convention is a key instrument establishing rules for domestic action and international cooperation for preventing, reducing and controlling significant adverse transboundary environmental impacts from proposed activities that include nuclear energy-related activities,

¹ Composed of representatives from Armenia, Austria, Belarus, Belgium, Bulgaria, Canada, Czechia, Finland, France, Germany, Greece, Italy, Lithuania, Luxembourg, the Netherlands, Norway, Poland, Portugal, Romania, Slovakia, Slovenia, Spain, the United Kingdom of Great Britain and Northern Ireland and Ukraine.

² ECE/MP.EIA/23/Add.1-ECE/MP.EIA/SEA/7/Add.1, decision VII/3–III/3, annex I.

³ ECE/MP.EIA/2019/10

Aware that over the coming years many nuclear power plants in the United Nations Economic Commission for Europe (ECE) region are reaching the end of their operational lifetime,

Aware also of the continuously growing number of information-gathering cases on the lifetime extension of nuclear power plants before the Implementation Committee and the Committee's call for guidance or criteria on the applicability of the Convention in this respect to assist it in assessing compliance by Parties with the Convention,

Wishing to assist Parties in complying with their obligations under the Convention, and to promote its legal certainty and effective application,

1. *Welcomes* and acknowledges the adoption of the terms of reference for guidance on the applicability of the Convention with regard to decisions on the lifetime extension of nuclear power plants by the Working Group;
2. *Recalls* the outcomes of the workshop on the lifetime extension of nuclear power plants, as contained in the Report of the Working Group on Environmental Impact Assessment and Strategic Environmental Assessment on its seventh meeting (ECE/MP.EIA/WG.2/2018/2);
3. *Also welcomes* the efforts of the ad hoc working group to develop the terms of reference as well as the active participation and practical experience presented at the workshop by countries and international and non-governmental organizations including the written input provided before and after the workshop;
4. *Recognizes* the urgent need for guidance expressed by the Implementation Committee to assist Parties in the practical application of the Convention with respect to the decisions related to the lifetime extension of nuclear power plants and to guide the Implementation Committee in its assessment of the related compliance cases;
5. *Welcomes* the work carried out so far by the ad hoc working group with a view to developing the draft guidance and takes note of the progress report prepared by the group contained in document ECE/MP.EIA/2019/10;
6. *Decides* to include in the workplan for 2017–2020 the preparation of a draft guidance on the applicability of the Convention to the lifetime extension of nuclear power plants;
7. *Agrees* that the draft guidance should be developed in line with the adopted terms of reference and the work of the ad hoc working group since May 2018, as reported in its progress report, also taking into account the outcomes of the workshop on the lifetime extension of nuclear power plants;
8. *Confirms* that the work will continue to be carried out by the ad hoc working group established at its seventh session, co-chaired by Germany and the United Kingdom, as extended by the Working Group on Environmental Impact Assessment and Strategic Environmental Assessment at its seventh meeting to include further volunteering representatives of States Parties, with support from the secretariat, while also ensuring that the views of civil society and other stakeholders are taken into account in the process;
9. *Decides* that the draft guidance should be finalized for consideration by the Working Group in mid-2020, before its submission to the Meeting of the Parties to the Convention for adoption at its eighth session in late 2020;
10. *Invites* the Implementation Committee to continue gathering information on pending cases regarding the lifetime extension of nuclear power plants and to continue providing its inputs to the work of the ad hoc working group as appropriate. .
