

# Asia Region Online Workshop

# Supporting the Monitoring and Implementation of SDG indicator 6.5.2 on Transboundary Water Cooperation

17th September 2020

## Rationale for the workshop

- Achieving SDG6 requires effective transboundary governance since 60 % of the world's freshwater flows in shared basins.
- Transboundary cooperation is crucial for other SDGs including peace, health, food, energy, climate change etc.
- SDG Target 6.5 asks countries to implement IWRM at all levels, including through transboundary cooperation.
- 1<sup>st</sup> reporting round showed that great progress is needed: only 17 of the reporting countries had all their transboundary basins covered by operational water arrangements in 2018, none located in Asia
- Second reporting exercise in 2020
- Part of a series of capacity building activities in monitoring progress and reporting on SDG 6.5.2, within the framework of the UN-Water Integrated monitoring initiative for SDG 6.

# Main objectives of the workshop

- Overall: **support countries** in the "SDG Regions": South-eastern Asia, Eastern Asia, Southern Asia, and Oceania to **collect**, **report** and **make use of data** on SDG indicator 6.5.2 measuring progress in transboundary water cooperation, for the 2<sup>nd</sup> reporting exercise in 2020
  - Introduce the **methodology for calculation** of indicator 6.5.2 value and the guidance documents materials for reporting;
  - **Highlight good practices and discuss challenges** in completing the 6.5.2 questionnaire, both from an organizational and institutional point of view (process) and for the calculation of the indicator (data availability and methods);
  - **Identify gaps of data**, in particular concerning **aquifers**, with emphasis on the component dedicated to improve the participation of Member States in the second monitoring cycle of the indicator 6.5.2;

## Main objectives of the workshop

- Identify synergies between reporting on SDG indicator 6.5.2 and SDG indicator 6.5.1, which measures the degree of integrated water resources management implementation (IWRM) at all levels, including at a transboundary level;
- Discuss how to benefit from and use the reporting process and cooperation actions that could improve transboundary water cooperation by 2030;
- Discuss the role of partners in supporting countries in their reporting efforts;
- Increase the rate of responses and the quality of reports in the second reporting exercise in 2020.

#### Workshop Agenda

Time	Agenda item
(Session duration: 65	Session 1: Setting the Scene: SDG 6 & Transboundary Water Cooperation
minutes)	Moderator: Hans Thulstrup – UNESCO Djakarta Office
	Session objective: 'Grounding' session to introduce participants to the workshop, get them to think about
	the topic and their engagement, introductory background information.
10 minutes	- Welcome and Opening Remarks
	Shahbaz Khan – Director of UNESCO Djakarta office
	- Introduction to the objective and the programme of the workshop, Online workshop organisation rules
	Alice Aureli – UNESCO and Sonja Koeppel – UNECE
10 minutes	Integrated monitoring of SDG 6 and introduction to SDG Indicator 6.5.2, Sarah Tiefenauer-Linardon – UNECE
	and Aurélien Dumont – UNESCO
5 minutes	Reporting on SDG 6 in the Asia and Pacific – Solene Ledoze, UN ESCAP
10 minutes	Ice Breaker – Fany Wedahuditama, GWP & Adhitya Wirayasa, GWP
15 mins	Most common difficulties in completing the National Reports on Surface Water and Groundwater
	Alistair Rieu-Clarke – UNECE and Aurélien Dumont – UNESCO
7 minutes	Transboundary aquifers in the Asia region – Neno Kukuric, IGRAC
7 minutes	Reporting on SDG 6.5.1. and linkages to SDG 6.5.2 – Yumiko Yasuda, GWP & Gareth James, UNEP
5 minutes	Summary and Q&As
10 minutes	Break

### Workshop Agenda

Time	Agenda item
(Session duration:	Session 2: Countries Experiences in Asia
80 minutes)	Moderator: Yumiko Yasuda,GWP
	Session objective: 'Engagement' part of the workshop.
	The purpose is to exchange on experiences from SDG 6.5.2 within Asian countries, and discuss challenges
	and opportunities, identify possible areas of improvement or collaboration in the future, participants will
	be able to interact with the organizers
5 minutes	Introductory Exercise, Fany Wedahuditama, GWP & Adhitya Wirayasa, GWP
25 minutes	Countries' presentation on their reports in the first phase and second phase of the monitoring of the SDG
	6.5.2: challenges and opportunities
5 minutes	Perspectives and experiences from outside of Asia region in SDG 6.5.2 reporting - David Molefha,
	Botswana
35 minutes	Break-out session
	Discuss in groups
	What are the common challenges and opportunities that you face in completing the 6.5.2 survey?
	How can we help countries to complete the report in this remaining time of 2020?
	How can neighbouring countries collaborate while filling in the report?
10 minutes	Break

#### Workshop Agenda

Time	Agenda item
(Session duration:	Session 3: Next step
60 minutes)	Moderator: Alistair Rieu-Clarke, UNECE
	Session objective: This session aims to 'harvest' the workshop result, digest them together and
	agree (or get ideas) for the next step
05	
25 minutes	Reporting back from each group (Group representative appointed rapporteur)
30 mins	Plenary discussion "Towards enhanced transboundary cooperation"
	- How partners can support the strengthening of transboundary water cooperation reporting
	- Regional efforts strengthen transboundary water cooperation
	UNESCO, UNECE, ESCAP, GWP, UNEP, Countries' Representatives
5 mins	Next steps and closure of the meeting
	Alice Aureli – UNESCO and Sonja Koeppel – UNECE
