### Target Measures

<table>
<thead>
<tr>
<th>Development of agreements based on international water law principles and the establishment of transboundary institutions for cooperation on shared resources</th>
</tr>
</thead>
</table>

### Results

| More efficient and accountable joint bodies for transboundary waters. |

### Partners

16.6 
16.7 
16.10

The Environment for Europe ministerial process provides a high-level platform for all stakeholders to discuss, on an equal footing, decide and join efforts in addressing environmental priorities across the region in an integrative way.

### Measures

| Use the procedures of the UNECE Espoo Convention and its Protocol on Strategic Environmental Assessment to make decision-making on economic activities that are likely to have adverse impacts on the environment and the health of the population more inclusive, participatory and representative, by ensuring consultation of the environmental and health authorities, other stakeholders and the public at the local, national and international levels |

### Results

| Improved governance and public trust in Government decision making on projects, plans, programmes and policies through greater transparency Better planning and more inclusive, participatory and representative decision-making on economic development |

### Partners

16.7 
16.10

**Good Practice**
