## Economic Commission for Europe

### Committee on Environmental Policy

#### Working Group on Environmental Monitoring and Assessment

##### Twenty-second session

Geneva, 27 October 2020

Item 3 of the provisional agenda

##### Implementing the mandate and terms of reference

### Revised draft annual timetable of activities for 2021

#### Note by the secretariat

##### *Summary*

At its twenty-second session (Geneva, 25–27 January 2017), the United Nations Economic Commission for Europe (ECE) Committee on Environmental Policy renewed the mandate and terms of reference of the Working Group on Environmental Monitoring and Assessment for a five-year period (2017–2021). The terms of reference require the preparation of annual timetables of activities, taking into account the financial and human resources available (ECE/CEP/2017/2, para. 32 (b), and annex II, para. 5).

The present document provides a draft annual timetable of activities for 2021 for consideration by the Working Group at its twenty-second session. It is based on written feedback received by member States in May 2020 and complements the revised outline of activities leading up to 2021 (ECE/CEP/AC.10/2019/3). The annual timetable of activities for 2021 will be submitted to the Committee on Environmental Policy for consideration at its twenty-sixth session (Geneva, 9–11 November 2020).

## Introduction

1. The present document sets out a timetable of activities to be carried out by the Working Group on Environmental Monitoring and Assessment in 2021.
2. The timetable is based on the renewed mandate and terms of reference of the Working Group (ECE/CEP/2017/2, annex II), the revised outline of the Working Group's activities leading up to 2021 (ECE/CEP/AC.10/2019/3) and written feedback received from member States in May 2020.
3. The Working Group will implement the activities in close collaboration with national and international governmental and non-governmental stakeholders, including youth organizations, research institutes and academia, and with other relevant United Nations Economic Commission for Europe (ECE) bodies, such as the Joint Task Force on Environmental Statistics and Indicators.
4. With the assistance of the ECE secretariat, member States and organizations that agree to lead any of the activities outlined below will need to facilitate their implementation and report to the Working Group on the progress made and challenges faced.
5. The Working Group will support the secretariat in its continuing efforts to mobilize resources and assistance from regional and international organizations and member States in order to enable the Working Group to operate fully.

Table 1.

### Timetable of activities in 2021

<i>Main overall objective and activity<sup>a</sup></i>	<i>Priority</i>	<i>Task or event</i>	<i>Timing (to be confirmed)</i>	<i>Indicator of achievement</i>	<i>Other activities<sup>a</sup></i>
A. Assist in the establishment and operation of national information systems in line with SEIS in Europe and Central Asia					
A.1. Continue supporting the establishment of SEIS with regard to its specific content and principles in support of regular environmental assessment processes and reporting	High	Capacity-building activities at annual sessions of the Working Group and Joint Task Force in support of SEIS establishment and regular monitoring and assessment, including on environment-related SDGs	May and October 2021	Holding of the capacity-building activities	B.3
		Development of an SEIS e-learning platform (ECE with UNEP)	Throughout 2021	SEIS e-learning platform	–

<i>Main overall objective and activity<sup>a</sup></i>	<i>Priority</i>	<i>Task or event</i>	<i>Timing (to be confirmed)</i>	<i>Indicator of achievement</i>	<i>Other activities<sup>a</sup></i>
A.2. Continue cooperating with the Joint Task Force in its work on environmental statistics and indicators, associated data sets and accompanying environmental information and data necessary to establish SEIS	High	Review and amendment of the ECE Guidelines for the Application of Environmental Indicators  Annual session of the Joint Task Force	Throughout 2021  October 2021	ECE Guidelines for the Application of Environmental Indicators reviewed and amended as appropriate  Report on the session	–  A.1, A.5, C.2, D.1, D.2, D.3
A.3. Regularly evaluate the performance of ECE countries in establishing and implementing SEIS against the SEIS targets and performance indicators adopted by the Committee	High	Final review of progress in the establishment of SEIS	First half of 2021	Compilation of completed questionnaires on the establishment of SEIS	A.4
A.5. Prepare a mid-term and a final report for the Committee on the establishment and implementation of SEIS leading up to 2021	High	Presentation of the final report on the establishment of SEIS at the first special session of the Committee on Environmental Policy	May 2021	Welcoming of the final report by the Committee	–
A.6. Provide annual recommendations on how SEIS can be further strengthened in European and Central Asian countries	Medium	Annual sessions of the Working Group and Joint Task Force	May and October 2021	Recommendations and advice provided to ECE countries in order to improve their SEIS performance	A.1, A.2, A.5
B. Lead a process of consultation on the regular pan-

European environmental assessment and the streamlining of regular state-of-the-environment reporting by 2020					
B.1. Bring together experts involved in the UNEP Global Environment Outlook process and the EEA European Environment Information and Observation Network to discuss and oversee the regular pan-European environmental assessment	Medium	Annual sessions of the Working Group and Joint Task Force and meetings between ECE, EEA and UNEP, as appropriate	Throughout 2021	Oversight described in the reports on Working Group and Joint Task Force sessions	C.3, D.3
		Support the preparation of a pan-European environmental assessment, supported by SEIS, with its nature, scope and leadership to be determined by the Committee on Environmental Policy	Throughout 2021	Pan-European environmental assessment supported by SEIS	
B.2. Discuss and detail regional priorities concerning the streamlining of regular state-of-the-environment reporting	High	Annual session of the Working Group	May 2021	Regional priorities described in the report on the Working Group session	–
B.3. Oversee the implementation of proposed	Medium	Annual session of the Working Group and	May 2021	Implementation of recommendation	–

<i>Main overall objective and activity<sup>a</sup></i>	<i>Priority</i>	<i>Task or event</i>	<i>Timing (to be confirmed)</i>	<i>Indicator of achievement</i>	<i>Other activities<sup>a</sup></i>
recommendations and guidance provided through the consultation process on the regular pan-European environmental assessment and the streamlining of regular state-of-the-environment reporting		preparation of an overview of recommendations made and how they were addressed		s supported, including through capacity-development activities and guidance	
		Capacity-building and advisory missions conducted in order to assist in the streamlining of regular state-of-the-environment reports	Throughout 2021	Capacity-building activities implemented, and advisory missions conducted	
C. Initiate a process of consultation on the development of a regional environmental information and assessment network of networks					
C.2. Cooperate with the Joint Task Force to ensure that all planned and future activities are synergetic and streamlined	High	Annual sessions of the Working Group and Joint Task Force	May 2021 and October 2021	Progress on environmental statistics and indicators described in the reports on Working Group and Joint Task Force sessions	–
C.3. Develop capacities to engage other communities and networks to discuss how environmental, social and	Medium	Annual session of the Working Group	May 2021	Participation by other communities and networks described in the reports on Working Group sessions	–
