Glossary, abbreviations and units of measurement

Glossary:

Long-distance road public transport: Road public transport between cities.

Passenger transport demand: Passenger transport demand (in thousand passenger-kilometres) is assessed by multiplying the total number of passengers for each transport mode by the distance of carriage; this is done separately for each mode of transport. All data should be based on movements on national territory, regardless of the nationality of the vehicle.

Road public transport in cities: Taxis, buses, trams, trolleybuses (underground excluded)

Abbreviations:

ECE: United Nations Economic Commission for Europe
EEA: European Environment Agency
EU: European Union
Eurostat: European Union Statistical Office
ITF: International Transport Forum
OECD: Organisation for Economic Co-operation and Development
THEPEP: Transport, Health and Environment Pan-European Programme
WHO: World Health Organization
Units of measurement:

pkm: passenger-kilometre
