To the members of the Aarhus Convention Compliance Committee

Re: Case ACCC147

Because the 66th Meeting of the ACCC is coming, I like to inform you in relation to the case ACCC147 (Rep. of Moldova) that in the period from November 9, 2019 till today in the Republic of Moldova nothing has happen, which is dealing with the improvement of the situation on access to environmental information on national level. No any initiative of any level has been taken by the by the authorities.

At the same time, for today I still not get the additional clarification questions of the AC Compliance Committee concerning the ACCC147 case, as it was decided during the hearings at the 65 Meeting of the Committee.

Sincerely yours,

Ilya Trombitsky
NGO Eco-TIRAS
