Subject: Re: Decision V/9j (Spain) - comments on the statement of the Party concerned from C36 communicant

Dear Aarhus Convention Secretariat, Dear Aarhus-Compliance Team, Dear Fiona Marshall,

We totally agree and support the comments made by the communicant of communication ACCC/C/2009/36 on the statement by the Party concerned and delivered at the Committee's 63rd Meeting: a judicial precedent as the mentioned by the Party has no value in Spanish legal system and only "jurisprudence" (two Judgements of the Spanish Supreme Court) can be a indirect source of law.

The Party concerned use the action of citizen groups asking for legal aid to hide its omissions to give a coherent, precise and definitive solution to the non-compliance situation, using the legislative tools.

The situation is far to be solved.

Sincerely,

Eduardo Salazar Ortuño
