Roadmap for integrating environmental information in national E-Governance/Open Data processes in Eastern Partnership countries

(Armenia, Azerbaijan, Belarus, Georgia, Republic of Moldova and Ukraine)
The ENI SEIS II East project’s expected results

1. Implementation of **regional/international commitments** related to environmental reporting;

   | Data harmonisation / comparable |

2. Improved capacities in the national administrations to **manage and use environmental information** to support decision-making;

   | Tools / information systems / indicators |

3. Regular “State of the Environment” reports and **indicator-based assessments** in line with EU and EEA methodologies;

   | Integration, key messages |

https://eni-seis.eionet.europa.eu/east
The “Open Data for Environment" component under the ENI SEIS II East project aims at ensuring:

- **Sustainability of the invested efforts** – building on results from the project thematic activities and bringing together relevant information in support of regular environmental assessments

- **Ownership by the partner countries** in advancing the open data initiatives at national and regional level

- **Synergy with the Arhus Convention and PRTR Protocol** activities to increase the environmental information availability and multiple use, in line with the SEIS principles

“..develop a Roadmap and identify feasible and practical means for integrating environmental information in national e-governance/Open Data processes and platforms”
Deliverables

• 2 regional workshops and 6 national roundtables
• 6 (Draft) Country Maturity Reports - on sharing and dissemination of environmental information *(still open for comments)*
  - Challenges related to E-government and Open Data initiatives and environmental information management/sharing
  - National Roadmap
• (Draft) Open data and e-government good practices for fostering environmental information sharing and dissemination *(still open for comments)*
  - Good practices for fostering environmental information sharing and dissemination
  - Recommendations
### Case studies from partnership countries
