

“Ageing and the city” **in the Czech Republic**

Daniela Grabmüllerová

Geneva, 7 October, 2013

Settlement structure

- ❑ 1 city with more than 1 million inhabitants
- ❑ 5 towns with more than 100,000 inhabitants
- ❑

In total – 6,250 municipalities:

80% municipalities have less than 1,000 inhabitants

80% Czech inhabitants live in cities.

Proportion of persons 65+

- 2007 - CZ – 14.6%
- 2030 - CZ – 22.8%
- 2030 - *UNECE region* – 20%
- 2050 - CZ – 31.3%
- *And then ...???*
- ***Interconnected with fertility***

“Ageing in place“ – services and support following people ...

Ageing in the city – **services** can enable independent living.

Rental sector - flexible enough - can offer adequate housing.

Subsidy programme - „supported rental flats“ construction

- Construction of rental “home-care flats” for seniors.
- Investors = **municipalities or private persons.**
- Rents are limited.

Not only buildings ... barrier free public spaces ...
