COVID-19 and older persons

7 April 2020

Older persons have moved to the centre of attention during the current COVID-19 pandemic. We have created this overview of resources relating to the situation and needs of older persons during the current COVID-19 pandemic to facilitate access to relevant information.

The resources included have been developed by international organisations, research networks and civil society organisations working with and for older persons in the UNECE region. The list is not comprehensive, and we will keep updating this page. Do not hesitate to contact us at unece.ageing@un.org to share relevant resources for inclusion.

The following are links to external websites. Responsibility for their content lies with the authors.
